Louise Burke Nutrición En El Deporte:

Nutrición en el deporte Louise Burke, 2009-11-19 A medida que los conocimientos y la práctica de la nutrición en el deporte se hacen cada vez más sofisticados aumenta la comprensión sobre las diferentes necesidades nutricionales de los deportistas. Se exige ahora información especializada respecto de la nutrición para varios deportes o ejercicios ya no resulta suficiente considerar al deportista en general o aspectos universales como la comida previa a una competencia o el aporte alimentario para la recuperación. Actualmente se sabe que los jugadores de baloncesto los nadadores los fondistas los gimnastas y los fisicoculturistas tienen diferentes requerimientos nutricionales que surgen de la diversidad en las necesidades diarias para el entrenamiento así como de las estrategias específicas para optimizar el rendimiento en una sesión de ejercicio físico como es una competición. Esta obra es la primera en brindar recomendaciones detalladas específicas para cada deporte con consejos aplicables al contexto real de la práctica. **Rendimiento Deportivo Máximo** John Hawley, Louise Burke, 2000-10 Rendimiento deportivo máximo es un libro completísimo que muestra la aplicación de los principios científicos a la nutrición y al entrenamiento. La participación creciente en carreras populares durante los últimos años indica que la práctica del running se está convirtiendo en un fenómeno social. Para un número cada vez mayor de personas constituye su principal afición y una forma de estimular su afán de superación. De esta forma nace el interés por el papel de la alimentación en el deporte y también este libro. Comer y correr. Esta guía se dirige tanto a corredores populares como a los que prefieren simplemente correr en su tiempo libre. Tiene como objetivo ayudar al lector o runner a reconocer qué hay de verdad y qué mito en la alimentación de los runners pero también resolver diversas dudas como si se debe beber mucha agua a lo largo de un maratón qué consumir antes de una carrera o qué comer y beber una vez esta concluye. **MÁS QUE NUTRICIÓN**
