uses to which letters were put in Shakespeare's time and recapturing what it meant to write send receive read and archive a letter it throws new light on some of his most familiar dramas Early modern letters were not private missives sent through an anonymous postal system but a vital sometimes the only means of maintaining contact and sending news between distant locations Penning a letter was a serious business in a period when writers made their own pen and ink letter writing protocols were strict letters were dispatched by personal messengers or carriers often received and read in public and Shakespeare exploited all these features to dramatic effect Surveying the vast range of letters in Shakespeare's oeuvre the book also features sustained new readings of Hamlet King Lear Antony and Cleopatra The Merchant of Venice and Henry IV Part One The Ashgate Research Companion to Dutch Art of the Seventeenth Century Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public's ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently *Dutch Paintings in the Metropolitan Museum of Art* Walter A. Liedtke, Metropolitan Museum of Art (New York, N.Y.), 2007 Presents a catalog that surveys the Dutch paintings found in the Metropolitan Museum of Art **Early Modern Women's Writing** Martine van Elk, 2017-01-09 This book is the first comparative study of early modern English and Dutch women writers It explores women's rich and complex responses to the birth of the public sphere new concepts of privacy and the ideology of domesticity in the seventeenth century Women in both countries were briefly allowed a public voice during times of political upheaval but were increasingly imagined as properly confined to the household by the end of the century This book compares how English and Dutch women responded to these changes It discusses praise of women marriage manuals and attitudes to female literacy along with female artistic and literary expressions in the form of painting engraving embroidery print drama poetry and prose to offer a rich account of women's contributions to debates on issues that mattered most to them *Women Letter-Writers in Tudor England* James Daybell, 2018-09-26 This book represents the most comprehensive study of women's letters and letter writing during the early modern period so far undertaken and acts as an important corrective to traditional ways of reading and discussing letters as private elite male and non political Based on over 3 000 manuscript letters it shows that letter writing was a larger and more socially diversified area of female activity than has been hitherto assumed In that letters constitute the largest body of extant sixteenth century women's writing the book initiates a reassessment of women's education and literacy in the period As indicators of literacy letters yield physical evidence of rudimentary writing activity

and abilities document higher forms of female literacy and highlight women's mastery of formal rhetorical and epistolary conventions. The book also stresses that letters are unparalleled as intimate and immediate records of family relationships and as media for personal and self-reflective forms of female expression. Read as documents that inscribe social and gender relations, letters shed light on the complex range of women's personal relationships as female power and authority fluctuated and negotiated on an individual basis. Furthermore, correspondence highlights the important political roles played by early modern women. Female letter writers were integral in cultivating and maintaining patronage and kinship networks; they were active as suitors for crown favour and operated as political intermediaries and patrons in their own right, using letters to elicit influence. Letters thus help to locate differing forms of female power within the family locality and occasionally on the wider political stage and offer invaluable primary evidence from which to reconstruct the lives of early modern women.

Cultures of Correspondence in Early Modern Britain James Daybell, Andrew Gordon, 2016-06-28. In *Cultures of Correspondence in Early Modern Britain*, leading scholars approach the letter from different disciplinary perspectives to illuminate its workings. Contributors to this volume examine how elements such as handwriting, seals, ink, and use of space were vitally significant to how letters communicated. *Women and Gender in the Early Modern Low Countries, 1500 - 1750* Sarah Joan Moran, Amanda C. Pipkin, 2019-05-07. *Women and Gender in the Early Modern Low Countries, 1500 - 1750* brings together research on women and gender across the Low Countries, a culturally contiguous region that was split by the Eighty Years War into the Protestant Dutch Republic in the North and the Spanish-controlled Catholic Habsburg Netherlands in the South. The authors of this interdisciplinary volume highlight women's experiences of social class as family members before the law and as authors, artists, and patrons, as well as the workings of gender in art and literature. In studies ranging from microhistories to surveys, the book reveals the Low Countries as a remarkable historical laboratory for its topic and points to the opportunities the region holds for future scholarly investigations. Contributors: Martine van Elk, Martha Howell, Martha Moffitt, Peacock, Sarah Joan Moran, Amanda Pipkin, Katlijne Van der Stighelen, Margit Th fner, and Diane Wolfthal. [The Little Street](#) Linda Stone-Ferrier, 2022-08-23. An interdisciplinary study of the central role that the neighborhood played in seventeenth-century Dutch painting and culture. The neighborhood was a principal organizing structure of Dutch cities in the seventeenth century, and each had its own regulations, administrators, social networks, events, and diverse population of residents. Linda Stone-Ferrier argues that this sense of community contributed to the steady demand for pictures portraying aspects of this culture. These paintings by such artists as Jan Steen and Pieter de Hooch reinforced the role and values of the neighborhood. Through close readings of such works by Steen and De Hooch and among others Gerrit Dou, Gabriel Metsu, Jacob van Ruisdael, and Johannes Vermeer, Stone-Ferrier deftly considers social history, urban studies, anthropology, and women's studies in this penetrating exploration. Her new interpretations of seventeenth-century Dutch painting across genres—scenes of streets, domesticity, professions, and festivity—challenge existing paradigms in Dutch art history. **The Golden**
