authorial self Focusing on European travelers to the expansive East from the soft architecture of Timur's tent palaces in Samarqand to the ambiguities of sexual identity at the Mughul court these essays reveal the possibilities for cultural translation as travelers of varying experience and attitude confront remote and foreign or not so foreign space

**Befarmaid** Dr. Shadab Ahmed, 2023-05-10 India has always been a region of multiple cultures and ethnicities comprising a multifaceted colorful and genuinely diverse civilization of innumerable peoples beliefs and languages The political domination of Muslim dynasties from Central Asia from the Ghaznavid conquests onwards led to Persian being grafted into the Indian subcontinent as the official language of governance and high culture As classical Persian culture fell into abeyance during the Middle Ages and the Islamic West disintegrated into chaos India fostered a Persian cultural renaissance of unparalleled literary achievement by migrants to India as well as by Indians themselves However from the beginning of the seventeenth century Urdu began to form around the lower echelons of society as a common tongue to enable communication between the myriad ethnicities of the Mughal Empire ultimately restricting Persian to a refined language of culture and courtly life in the Mughal court and becoming a vibrant and dynamic language in its own right thus becoming the first literary language with a substantial original contribution from Indians since ancient Sanskrit Presented in this book are proses minstrelsy and parnassus straight from the kings emperors saints prisoners and outlaws of the Mughal court and jurisdiction as well as the beau monde and aristocracy of the Mughal India The Man with Six Typewriters Steve

Doughty, 2015-03-23 In this collection of non fiction narratives Steve Doughty offers an evocative exploration of contemporary spiritual seeking The figures in these stories are as varied as a Muslim woman and Christian couple meeting at a peace vigil a minister dazzled by photos from the Hubble telescope a Native American stone carver a miner receiving his last communion and two attorneys risking their lives to defend victims of political violence in Colombia A number of the main figures live on society's margins They contend with issues of life and faith in arenas ranging from social justice to science prayer mental illness sexuality interfaith encounter and the humdrum of daily life The author notes that the main characters have attracted him as a pastor and seeker because they offer images to ponder Images of real people Images of the wonderings and affirmations that take shape within our deepest selves And finally images of the living God at work within us among us and through us As with all such images these challenge us at least as much as they comfort and reassure An appendix offers questions for personal reflection group study and retreats Green Hermeticism Peter Lamborn

Wilson, Christopher Bamford, Kevin Townley, 2007-05 Hermeticism or alchemy is the ancient primordial mystery science of nature through which people in all times and places have for the sake of world evolution sought to unite Heaven and Earth divinity cosmos earth and humanity as a single whole Selfless intimate dedicated to healing and harmony Hermeticism has accompanied and sustained every religious epoch and revelation It may be found in all historical cultures from the traditions of India and China in the East to the Judeo Christian West It could even be said that Hermeticism is the primal cosmological

revelation and the common ground of all spiritual traditions Nevertheless in the great revival of mystical esoteric traditions and practices during the last century Hermetic tradition in fact Nature herself has been largely ignored Today when the Earth seems most under attack Green Hermeticism is especially appropriate The book explores not only the ancient Masters inner science but also their science of Nature During spring and summer 2006 Pir Zia Khan convened a series of gatherings to begin to unfold the contemporary meaning of ancient sacred science for our time Green Hermeticism is a partial record of that meeting Peter Lamborn Wilson explores the many ramifications of the alternative worldview offered by Hermeticism Christopher Bamford provides a broad historical overview of the tradition from the Ancient Mysteries to contemporary manifestations of the alchemical tradition while Kevin Townley brings a practical dimension to the gathering teaching the preparation of herbal elixirs and demonstrating that cosmology and philosophy can become a truly healing path for the Earth Green Hermeticism is necessary reading for anyone seeking a spiritual and cultural path for the healing of the current ecological and cultural crisis In Alchemy there is an injunction to quicken or revive the dead which is illustrated by a dead tree growing verdant again That is exactly what this wonderful and rare work does in awakening human consciousness to its Divine potential and Ultimate Destiny Art thus helps Nature to achieve its ideal Perfection The authors must be congratulated for their insightful words I wholeheartedly recommend reading it again and again and again Stanislas Klossowski de Rola author Alchemy The Secret Art and The Golden Game Alchemical Engravings of the Seventeenth Century Environmental solutions today are largely technical but the planetary crisis is also a crisis of soul or better yet of the Imagination Too tricky for religion too poetic for reductionist science Green Hermeticism reheats a prophetic imagination still in love with the material world a new alchemy of ancient nature Erik Davis author The Visionary State A Journey through California s Spiritual Landscape Just when you felt numb and disenfranchised thinking the world had become bleak and dead along comes this rare much needed book to remind us that there is still some sanity depth and creative energy percolating up from the heart of Reality Thank God and the Goddess Nature for this smart and inspiring breath of fresh air Green Hermeticism is where the wasteland ends and where the world becomes re enchanted with genuine living thought that goes beyond superficialities It s a rare pleasure to be in the presence of living minds who actually know something wonderful and have not been deadened by the opiates of capital or the tenure track Very highly recommended David Fideler publisher Phanes Press editor Alexandria author of Jesus Christ Sun of God and translator of Love s Alchemy Poems from the Sufi Tradition with Sabrineh Fideler The publication of Green Hermeticism has the sense we so rarely get of a genuine moment in cultural history It is not just the eloquence of its authors knowledge and arguments or that they are showing us once again the depth and range and beauty of alchemy and the Hermetic tradition and what Peter Lamborn Wilson calls Romantic Science Nor is it even the links they establish between the Hermetic tradition and ecology and the value of a science that perceives the world as alive rather than a machine What makes this work significant is the sense that it shows us how we can use these ideas and

knowledge to create a genuine counter to destruction and despair an alchemy of our politics as well as of our spirit Rachel Pollack author of 78 Degrees of Wisdom A Book of Tarot Green Hermeticism reminds us that the art of the Great Work is to enter more deeply into the dynamic and practical wisdom of the universe which is our laboratory where work and prayer combine When we engage with the All we know ourselves to be one kindred with all in the viriditas God's greening power where body soul and spirit honor each other Caitlín John Matthews authors of Walkers Between the Worlds The Western Mysteries from Shaman to Magus
