God Believes In Love Straight Talk About Gay Marriage:

God Believes In Love Gene Robinson, 2012 An openly gay Episcopal bishop presents an argument for same sex marriage from a religious perspective addressing the controversial issues surrounding the debate while sharing the stories of his own marriages and how his views have been shaped by Church history

God Believes in Love Gene Robinson, 2013-06-04 From the IX Bishop of the Diocese of New Hampshire in the Episcopal Church the first openly gay person elected to the episcopate and the world's leading religious spokesperson for gay rights and gay marriage a groundbreaking book that persuasively makes the case for same sex marriage using a commonsense reasoned religious argument Robinson holds the religious text of the Bible to be holy and sacred and the ensuing two millennia of church history to be relevant to the discussion He is equally familiar with the secular and political debate about gay marriage going on in America today and is someone for whom same sex marriage is a personal issue Robinson was married to a woman for fourteen years and is a father of two children and has been married to a man for the last four years of a twenty five year relationship Robinson has a knack for taking complex and controversial issues and addressing them in plain direct language without using polemics or ideology putting forth his argument for gay marriage and bringing together sacred and secular points of view

Can You Be Gay and Christian? Michael L. Brown, 2014 Gay and Christian will provide solid biblical answers clearly written and based on sound scholarship in a compassionate way that causes the reader to wrestle with the issues and discover the biblical truth

Confronting Religious Denial of Gay Marriage Catherine M. Wallace, 2015-10-27 Writing in part for secular humanists non Christians and ex Christians Wallace locates the beginning of religious vilification of LGBTQ Americans these attacks recycle earlier equally reactionary political opposition to racial desegregation and equal rights for women Then step by step she lays out three major flaws in the religious argument against gay marriage First it derives from Plato and Greco Roman sexual anxieties not from Jesus Second opposition to gay marriage takes Bible verses out of context ignoring their roots in Iron Age biology sexual politics in the classic era and pagan ritual practices Third and most importantly this opposition reflects an inadequate moral theology based on a denial of contemporary science and social science Then and only then does she offer her own concept of marriage as a morally rooted creative process laying out common ground easily shared by Christian humanists and secular humanists alike Her nimble accessible account richly leavened by personal stories will facilitate new conversations and alliances among all those believers and nonbelievers alike who affirm the moral dignity of gay marriage

Experiencing God Ian S. Markham, Kimberly E. Dunn, 2024-04-01 Episcopalians are famous for their liturgy music and their thoughtful approach to faith and prayer However Episcopalians are less famous for their willingness to talk about their faith and their experience of God In this volume a group of leading Episcopalians share moments of deep spiritual intimacy When did they sense the presence of God How did they experience the presence of God What is prayer like How do they pray What is it like to walk each day with Jesus How seriously do they take the promptings of the Holy Spirit How does

the transcendent feel in their lives How does the transcendent show up in their daily lives This is a unique book that invites the reader to also start sharing their own sense of God with others *Members of His Body* Will Stockton, 2017-05-01

Building on scholarship regarding both biblical and early modern sexualities *Members of His Body* protests the Christian defense of marital monogamy According to the Paul who authors 1 Corinthians believers would do well to remain single and focus instead on the messiah's return According to the Paul who authors Ephesians plural marriage is the telos of Christian community Turning to Shakespeare Will Stockton shows how marriage functions in *The Comedy of Errors* *The Merchant of Venice* *Othello* and *The Winter's Tale* as a contested vehicle of Christian embodiment Juxtaposing the marital theologies of the different Pauls and their later interpreters Stockton reveals how these plays explore the racial religious and gender criteria for marital membership in the body of Christ These plays further suggest that marital jealousy and paranoia about adultery result in part from a Christian theology of shared embodiment the communion of believers in Christ In the wake of recent arguments that expanding marriage rights to gay people will open the door to the cultural acceptance and legalization of plural marriage *Members of His Body* reminds us that much Christian theology already looks forward to this end

Moral Combat R. Marie Griffith, 2017-12-12 From an esteemed scholar of American religion and sexuality a sweeping account of the century of religious conflict that produced our culture wars Gay marriage transgender rights birth control sex is at the heart of many of the most divisive political issues of our age The origins of these conflicts historian R Marie Griffith argues lie in sharp disagreements that emerged among American Christians a century ago From the 1920s onward a once solid Christian consensus regarding gender roles and sexual morality began to crumble as liberal Protestants sparred with fundamentalists and Catholics over questions of obscenity sex education and abortion Both those who advocated for greater openness in sexual matters and those who resisted new sexual norms turned to politics to pursue their moral visions for the nation Moral Combat is a history of how the Christian consensus on sex unraveled and how this unraveling has made our political battles over sex so ferocious and so intractable

The Disunity of American Culture John C. Caiazza, 2017-07-28 The Disunity of American Culture describes culture now when different forces are influencing it than in the past altering it to near incomprehensibility Identity issues have an effect on culture and politics more influential is the question of what support the state is obligated to provide the individual John C Caiazza seeks to explain how this situation came to be He begins with an explanation of the origins of Protestantism in America Caiazza describes how the American religion has declined and the recent responses the decline has provoked Caiazza follows with an analysis of science as it presently exists in American culture The work of three scientists prominent in their respective fields Steven Weinberg in physics E O Wilson in biology and Stanley Milgram in psychology are examined with respect to how their work has influenced culture The author examines the failure of America's school of philosophy pragmatism to explain the relationship between religion science and general culture even though its founders Charles S Peirce and William James made serious efforts to do so He concludes by making the case that there is a contradiction between scientific reason and the claim of state power Caiazza argues that cultural disharmony will guarantee that the secular state never achieves the dominance over culture and political life it desires
