*Catholic Theological Ethics* Todd A. Salzman, Michael G. Religion and Intersex Stephanie A. Budwey, 2022-08-25 This

book considers the situation of intersex people who have faced erasure in the areas of science law culture and theology due to the assumption that all humans are either female or male Centered in interviews conducted with German intersex Christians this book argues that moving from a paradigm of sexual dimorphism to sexual polymorphism will help promote the full humanity and flourishing of intersex people by creating a world where intersex individuals are no longer coerced and or forced to undergo non consensual medically unnecessary treatment no longer experience human rights violations because of their lack of legal protection no longer feel inhuman and Other due to epistemic injustice that stems from socio cultural norms and stereotypes are no longer told they are not made in God s image as a result of a sexually dimorphic understanding of Genesis 1 27 and no longer feel excluded and invisible in worship services that do not recognize them This combination of the practical and the spiritual allows for a reconsideration of the medical treatment and pastoral care that should be available to intersex people This book will be helpful to those in the disciplines of science law culture and theology particularly those in gender and theological studies and those already in and studying for lay and ordained ministry

After hundreds of years during which Eve was blamed for originating sin St Paul removed her from the narrative of the fall to create a one man one man typology between Adam as the origin of sin and Christ as the source of salvation This disappearance created a theological problem Eve fell outside the narrative of sin and salvation Early Christians sensing the lack in Paul s formula created an alternative typology between Eve the mother of all the living and Mary the mother of Jesus Eventually early theologians attempted to solve the soteriological problem Eve posed by coordinating these two typologies This solution however produced a further dilemma Either Mary had to be posited as a second savior or the salvation offered to Eve in the revised scheme had to be second class Neither option is theologically acceptable The Disappearance of Eve and the Gender of Christ proposes a solution to this problem It revises Paul s original formula and with it a set of common claims about Christ s sex and gender It accepts Christ as the new Adam and the new Eve and accepts that Christ is theologically speaking trans Carnahan offers a new theology of sex and gender as a calling within a context of responsibility as a

framework for making sense of Eve Christ and ourselves He shows how from first century Roman culture to medieval mystical experience and into our own time there exists a long tradition of seeing Christ as transgressing and even transitioning across sex and gender boundaries *Emerging as Affirmative Pastoral Caregivers Beyond Gender Binaries* Craig A. Rubano, 2023-11-13 *Emerging as Affirmative Pastoral Caregivers Beyond Gender Binaries* Gender Creative Promise uniquely brings a gender diverse theological imagination to the field of pastoral theology supplemented by deploying a gender creative interpretative lens on scripture The reader is introduced to an array of persons diverse in their gender variance four continua of gender sex identity expression attraction a gender affirmative psychotherapeutic model as a template for the field of pastoral theology common resilience strategies that transgender persons employ in the face of cultural oppression and aspersion benefits derived from religious affiliation that can enhance resilience and scripturally based principles for delivering affirmative pastoral caregiving beyond gender binaries The author encourages readers to look within and wrestle with the complexities of their own gendered selves while journeying alongside him to emerge as pastoral change makers in their places of teaching ministry and caregiving **Sin Boldly!** Ted Peters, 2015-06-01 Can faith as trusting God make a difference Absolutely by relieving our anxiety over self justification and the need to scapegoat others *Sin Boldly* provides an experiential analysis of the contrast between self justification and justification by God We must pose the question how can the gospel of grace provide transformation for both fragile and broken souls This book proposes the following answer trusting in the God of grace relieves anxiety and provides a divine vocation that transcends our moral universe with the promise of forgiveness renewal and resurrection **Original Sin and the Evolution of Sexual Difference** Megan Loumagne Ulishney, 2022-11-03 *Original Sin and the Evolution of Sexual Difference* develops an interdisciplinary conversation between evolutionary biology feminist philosophy and theology in order to illuminate the entanglement of Christian thinking about original sin with theologies of sexual difference It then assesses the opportunities for rethinking original sin and its implications for theologies of sexual difference in light of developments in evolutionary biology and feminist theology and philosophy Despite some resistances in the present age to conceptions of both original sin and meaningful sexual differences this study argues that both can provide essential insights that help to make sense of some of the features of human life in the twenty first century especially the stubborn persistence of inequality poverty environmental degradation and the pernicious patterns of sexual violence and abuse that have been uncovered by the MeToo movement To this end Megan Loumagne Ulishney marshals resources from a variety of places Augustine of Hippo feminist theology the Extended Evolutionary Synthesis John Paul II and a new group of feminist philosophers known as the New Feminist Materialists to develop an analysis of original sin and sexual difference that is grounded in both scientific and theological insights about creaturely life The project cultivates a sense of wonder at the diversity and unpredictability of human biology a value for the role of creativity in the human participation that partially shapes our ongoing evolution and

humility about the extent to which we can predict and control the future of the evolution of our species It illuminates the interdependencies that define creaturely life the persistent entanglement of nature and culture the centrality of desire to human identity and behaviour and the role played by biology in the transmission of sin It develops a vision of material life as evolving generative and imbued with activity but also as simultaneously infected with sin and saturated with the divine

Justice Through Diversity? Michael J. Sweeney, 2016-08-30 Arguably the most transformative force in contemporary society is the commitment to justice through diversity A prime example is the change justice through diversity has wrought on who enters teaches and administers the university It has changed the content of what is taught and the mission statements that define the purpose of higher education What is rarely defined however is justice and how it is related to diversity If justice is equality are all differences equal Are all differences in race gender sexual orientation national origin ethnicity religion and culture equal Should such differences be weighted differently and thus hierarchically On what basis are those differences to be weighted and ranked to ensure equality Justice Through Diversity brings together a Who's Who of contemporary scholars to explore these questions and others in an attempt to understand one of the central commitments in the modern world **Journal of Moral Theology, Volume 5, Number 1** David M.
