Christianization and Commonwealth in Early Medieval Europe re-examines the alterations in Western European life that followed widespread conversion to Christianity, the phenomena traditionally termed Christianization. It refocuses scholarly paradigms for Christianization around the development of mandatory rituals. One prominent ritual, Rogationtide, supplies an ideal case study demonstrating a new paradigm of Christianization without religion. Christianization in the Middle Ages was not a slow process through which a Christian system of religious beliefs and practices replaced an earlier pagan system. In the Middle Ages, religion did not exist in the sense of a fixed system of belief bounded off from other spheres of life. Rather, Christianization was primarily ritual performance. Being a Christian meant joining a local church community. After the fall of Rome, mandatory rituals such as Rogationtide arose to separate a Christian commonwealth from the pagans, heretics, and Jews outside it. A Latin West between the polis and the parish had its own institution, the Rogation procession, for organizing local communities. For medieval people, sectarian borders were often flexible, and rituals served to demarcate these borders. Rogationtide is an ideal case study of this demarcation because it was an emotionally powerful feast which combined pageantry with doctrinal instruction, community formation, social ranking, devotional exercises, and bodily mortification. As a result, rival groups quarrelled over the holiday's meaning and procedure, sometimes violently, in order to reshape the local order and ban people and practices as non-Christian. *The Formation of Christian Europe* Owen M. Phelan, 2014-10-23. The Formation of Christian Europe analyses the Carolingians' efforts to form a Christian Empire with the organizing principle of the sacrament of baptism. Owen M. Phelan argues that baptism provided the foundation for this society and offered a medium for the communication and the popularization of beliefs and ideas through which the Carolingian Renewal established the vision of an imperium christianum in Europe. He analyses how baptism unified people theologically, socially, and politically and helped Carolingian leaders order their approaches to public life. It enabled reformers to think in ways which were ideologically consistent, publically available, and socially useful. Phelan also examines the influential court intellectual Alcuin of York who worked to implement a sacramental society through baptism. The book finally looks at the dissolution of Carolingian political aspirations for an imperium christianum and how, by the end of the ninth century, political frustrations concealed the deeper achievement of the Carolingian Renewal. Routledge Revivals: Women and Gender in Medieval

Europe (2006) Margaret Schaus, 2017-07-12 First published in 2006 *Women and Gender in Medieval Europe* examines the daily reality of medieval women from all walks of life in Europe between 450 CE and 1500 CE This reference work provides a comprehensive understanding of many aspects of medieval women and gender such as art economics law literature sexuality politics philosophy and religion as well as the daily lives of ordinary women Masculinity in the middle ages is also addressed to provide important context for understanding women's roles Additional up to date bibliographies have been included for the 2016 reprint Written by renowned international scholars and easily accessible in an A to Z format students researchers and scholars will find this outstanding reference work to be a valuable resource on women in Medieval Europe *Patriarchy and Families of Privilege in Fifteenth-Century England* Joel T. Rosenthal, 1991-09-29 There are contends Joel Rosenthal two suppositions that have achieved almost full and unquestionable acceptance in contemporary social history and family studies The first is that at any given time in any given culture one particular form or model of the family dominates the second is that historical changes in the family operate in a single and compelling direction In *Patriarchy and Families of Privilege in Fifteenth Century England* the author joins quantitative and legal evidence with case studies to yield a depiction of the family as something at once corporeal fictive and symbolic **Mothering, Public Leadership, and Women's Life Writing** Claire Wolfeich, 2017-07-31 In *Mothering Public Leadership and Women's Life Writing* Claire E Wolfeich presents a series of case studies in Christian spirituality bringing mothers autobiographical writing into focus for theological reflection From the medieval mystic Margery Kempe to the twentieth century activist Dorothy Day from African American preacher Jarena Lee to labor organizer Dolores Huerta the book mines women's first person writing surfacing critical issues for theological analysis Listening deeply to these diverse maternal voices the book advances creative theological reflection on work vocation time poverty Sabbath and spiritual guidance *Mothering Public Leadership and Women's Life Writing* demonstrates the significance of the study of mothering for theology and spirituality studies and the import of life writing as an underutilized source for practical theology **Women, Family, and Society in Medieval Europe** David Herlihy, 1995 A selection of Herlihy's essays compiled as a tribute to his influence His particular interest in the nature of the family and the role of women within that unit is amply reflected in this volume Articles include Did women have a renaissance The Florentine Merchant family in the Middle Ages Biology and History Suggestions for a Dialogue **Cosmos and Materiality in Early Modern Prague** Suzanna Ivanič, 2021 In the seventeenth century Prague was the setting for a complex and shifting spiritual world By studying the city's material culture this book presents a bold alternative understanding of early modern religion in central Europe *Approaches to the Byzantine Family* Leslie Brubaker, Shaun Tougher, 2016-04-08 The study of the family is one of the major lacunas in Byzantine Studies Angeliki Laiou remarked in 1989 that the study of the Byzantine family is still in its infancy and this assertion remains true today The present volume addresses this lacuna It comprises 19 chapters written by international experts in the field which take a variety of approaches to the study of the Byzantine family and

embrace a chronological span from the later Roman to the late Byzantine empire The context is established by chapters focusing on the Roman roots of the Byzantine family the Christianisation of the family and the nature of the family in contemporaneous cultures the late antique west and the Islamic east Key methodological approaches to the Byzantine family are highlighted and discussed in particular prosopographical and life course approaches The contribution of hagiography to the understanding of the Byzantine family is analysed by several authors other chapters on the family and children in art and on the archaeology of the Middle Byzantine house explore the material evidence that can shed light on the Byzantine family Overall the diversity of families that existed in Byzantium blood fictive metaphorical is emphasised and chapters consider the specific cases of ascetic monastic aristocratic and peasant families as well as the imperial family which is illuminated by the comparative case of a Caliphal family The volume is topped and tailed by a Preface and an Afterword by the editors which address the state of the field and consider the way ahead Thus the volume is vital in putting the subject of the Byzantine Family in sharp focus and setting the research agenda for the future

#### **Medieval Canon Law** James A

Brundage,2014-06-11 It is impossible to understand how the medieval church functioned and in turn influenced and controlled the lay world within its care without understanding the development character and impact of canon law its own distinctive law code However important this can seem a daunting subject to non specialists They have long needed an attractive but authoritative introduction avoiding arid technicalities and setting the subject in its widest context James Brundage s marvellously fluent and accessible book is the perfect answer it will be warmly welcomed by medievalists and students of ecclesiastical and legal history

[The Dangers of Christian Practice](#) Lauren F. Winner,2018-01-01 Challenging the central place that practices have recently held in Christian theology Lauren Winner explores the damages these practices have inflicted over the centuries Sometimes beloved and treasured Christian practices go horrifyingly wrong extending violence rather than promoting its healing In this bracing book Lauren Winner provocatively challenges the assumption that the church possesses a set of immaculate practices that will definitionally train Christians in virtue and that can t be answerable to their histories Is there for instance an account of prayer that has anything useful to say about a slave owning woman s praying for her slaves obedience Is there a robustly theological account of the Eucharist that connects the Eucharist s goods to the sacrament s central role in medieval Christian murder of Jews Arguing that practices are deformed in ways that are characteristic of and intrinsic to the practices themselves Winner proposes that the register in which Christians might best think about the Eucharist prayer and baptism is that of damaged gift Christians go on with these practices because though blighted by sin they remain gifts from God

**Infant Baptism in Reformation Geneva** Karen E. Spierling, 2017-03-02 This book examines the beliefs practices and arguments surrounding the ritual of infant baptism and the raising of children in Geneva during the period of John Calvin s tenure as leader of the Reformed Church 1536 1564 It focuses particularly on the years from 1541 onward after Calvin s return to Geneva and the formation of the Consistory The work is based on sources housed primarily in the Genevan State Archives including the registers of the Consistory and the City Council While the time period of the study may be limited the approach is broad encompassing issues of theology church ritual and practices the histories of family and children and the power struggles involved in transforming not simply a church institution but the entire community surrounding it The overarching argument presented is that the ordinances and practices surrounding baptism present a framework for relations among child parents godparents church and city The design of the baptismal ceremony including liturgy participants and location provided a blueprint of the reformers vision of a well ordered community To comprehend fully the development and spread of Calvinism it is necessary to understand the context of its origins and how the ideas of Calvin and his Reformed colleagues were received in Geneva before they were disseminated throughout Europe and the world In a broad sense this project explores the tensions among church leaders city authorities parents relatives and neighbours regarding the upbringing of children in Reformed Geneva More specifically it studies the practice of infant baptism as manifested in the baptism ceremony in Geneva the ongoing practices of Catholic baptism in neighbouring areas and the similarities and

tensions between these two rituals

**The Ethics of Everyday Life** Michael C. Banner, 2014 Why do we have children and what do we raise them for Does the proliferation of depictions of suffering in the media enhance or endanger compassion How do we live and die well in the extended periods of debility which old age now threatens Why and how should we grieve for the dead And how should we properly remember other grief and grievances In addressing such questions the Christian imagination of human life has been powerfully shaped by the imagination of Christ's life Christ's conception birth suffering death and burial have been subjects of profound attention in Christian thought just as they are moments of special interest and concern in each and every human life However they are also sites of contention and controversy where what it is to be human is discovered constructed and contested Conception birth suffering burial and death are occasions in other words for profound and continuing questioning regarding the meaning of human life as controversies to do with IVF abortion euthanasia and the use of bodies and body parts post mortem indicate In *The Ethics of Everyday Life* Michael Banner argues that moral theology must reconceive its nature and tasks if it is not only to articulate its own account of human being but also to enter into constructive contention with other accounts In particular it must be willing to learn from and engage with social anthropology if it is to offer powerful and plausible portrayals of the moral life and answers to the questions which trouble modernity Drawing in wide ranging fashion from social anthropology and from Christian thought and practice from many periods and influenced especially by his engagement in public policy matters including as a member of the UK's Human Tissue Authority Banner develops the outlines of an everyday ethics stretching from before the cradle to after the grave

**Anglo-Saxon Emotions** Alice Jorgensen, Frances McCormack, Jonathan Wilcox, 2016-04-15 Research into the emotions is beginning to gain momentum in Anglo Saxon studies In order to integrate early medieval Britain into the wider scholarly research into the history of emotions a major theme in other fields and a key field in interdisciplinary studies this volume brings together established scholars who have already made significant contributions to the study of Anglo Saxon mental and emotional life with younger scholars The volume presents a tight focus on emotion rather than psychological life more generally on Anglo Saxon England and on language and literature with contrasting approaches that will open up debate The volume considers a range of methodologies and theoretical perspectives examines the interplay of emotion and textuality explores how emotion is conveyed through gesture interrogates emotions in religious devotional literature and considers the place of emotion in heroic culture Each chapter asks questions about what is culturally distinctive about emotion in Anglo Saxon England and what interpretative moves have to be made to read emotion in Old English texts as well as considering how ideas about and representations of emotion might relate to lived experience Taken together the essays in this collection indicate the current state of the field and preview important work to come By exploring methodologies and materials for the study of Anglo Saxon emotions particularly focusing on Old English language and literature it will both stimulate further study within the discipline and make a distinctive contribution to the wider interdisciplinary conversation about emotions
