**How to Help Your Child Survive & Thrive in Public School** Cliff Schimmels,1982 *How Public Schools Destroy Your Children's Lives and Careers* Sandro Sehic,2010-06 Educating your children in the public schools does not take one minute or perhaps one day Education is a life long process and whether we like it or not the fact is it never stops Your children will spend the most important part of their lives at the public schools and whatever they learn at those schools will impact their lives as long as they live What really happens to your children at public schools each day Do you think that your children are learning useful information in today's schools If you think that your children will leave today's public schools properly prepared for real life the answer is no you are WRONG Public schools have failed Many teachers are not properly educated with the appropriate teaching certification School administrators constantly sell lies about the success of their students when in reality they are failing miserably today Courses and exams are designed to be very simple so that they no longer test the knowledge of our children properly The greatest portion of school budgets is spent on the salary of local school administrators Almost everything your children learn in today's public schools is useless Teaching positions are no longer designed for the smartest and most qualified teachers they have become political positions that anyone can hold as long as they get approved by the school board It's not too late to do something to turn this around How Public Schools Destroy Your Children's Lives and Careers offers thoughts and solutions on this hot button topic
