Line Doggie: Foot Soldier in Vietnam Charles Gadd, 2013-04-24 Charles Gadd served in Vietnam in late 1967 and 1968 and had experiences very similar to what most enlisted men endured He describes the mud blood leeches loss of friends and low morale due to constant harassment by guerrillas The author a squad leader with the 101st Airborne was wounded twice and saw nearly constant action in the Central Highlands This memoir is a vivid and accurate description of the Vietnam War I must explain that this story is written in the first person in order to depict more

clearly the horror fear joy and sorrow that practically every line doggie experienced during his tour in one of history's most unpopular wars Millions of other stories are even more dramatic than those in this book and every trooper who carried a rifle and rucksack in Vietnam now carries around in his own mind a book full of stories similar to these Written some sixteen years after it took place this story tells how I envisioned the Vietnam War during the late 1960s I was young and inexperienced and had no doubts that my country was doing the right thing by its involvement in this faraway land I knew practically nothing about the political relationship between this small country and mine and merely accepted the fact that we were right and they were wrong and that was that Being a product of the post World War II baby boom I was brought up hating communism even though I knew very little about it Serving a year in Vietnam instilled in me the knowledge that communism was truly a reign of horror and though I still feel our cause was just I now have doubts and questions that I fear may forever go unanswered Charles Gadd from the Author's Note

Getting Under Our Skin Lisa T. Sarasohn, 2021-09-21

How vermin went from being part of everyone's life to a mark of disease filth and lower status For most of our time on this planet vermin were considered humanity's common inheritance Fleas lice bedbugs and rats were universal scourges as pervasive as hunger or cold at home in both palaces and hovels But with the spread of microscopic close ups of these creatures the beginnings of sanitary standards and the rising belief that cleanliness equaled class vermin began to provide a way to scratch a different itch the need to feel superior and to justify the exploitation of those pronounced ethnically and entomologically inferior In *Getting Under Our Skin* Lisa T. Sarasohn tells the fascinating story of how vermin came to signify the individuals and classes that society impugns and ostracizes How did these creatures go from annoyance to social stigma And how did people thought verminous become considered almost a species of vermin themselves Focusing on Great Britain and North America Sarasohn explains how the label vermin makes dehumanization and violence possible She describes how Cromwellians in Ireland and US cavalry on the American frontier both justified slaughter by warning Nits grow into lice Nazis not only labeled Jews as vermin they used insecticides in the gas chambers to kill them during the Holocaust Concentrating on the insects living in our bodies clothes and beds Sarasohn also looks at rats and their social impact Besides their powerful symbolic status in all cultures rats endurance challenges all human pretensions From eighteenth century London merchants anointing their carved bedsteads with roasted cat to repel bedbugs to modern day hedge fund managers hoping neighbors won't notice exterminators in their penthouses the studies in this book reveal that vermin continue to fuel our prejudices and threaten our status *Getting Under Our Skin* will appeal to cultural historians naturalists and to anyone who has ever scratched and then gazed in horror
