Teaching Early Numeracy to Children with Developmental Disabilities Corinna F. Grindle,Richard P. Hastings,Robert J. Wright,2020-10-14 This practical guide for teaching numeracy to children with a developmental disability is based on core concepts from the landmark Mathematics Recovery text Teaching Number aka the green book that have been adapted for children with developmental disabilities It sets out key principles of teaching and learning underpinning an evidence based teaching approach and provides clear guidance on how educators can plan and implement a structured teaching program so that every child can be given a positive experience in learning numeracy and achieve significant outcomes maximizing their potential The book is supported by a comprehensive set of online resources for use in the classroom including 90 lesson plans carefully tailored to provide sequenced learning experiences for children and school students who may need them most *A Practical Guide to Early Childhood Planning, Methods, and Materials* Evelyn A. Petersen,1996 This very practical Guide is aimed at helping pre service and inservice teachers put early childhood theories and information into daily practice Aimed at long range short range and daily lesson planning it s coverage of such topics as How to Plan and Document Individualized Teaching and Creating Developmentally Appropriate Lesson Plans should be useful to anyone working with young children An excellent very complete book with step by step suggestions for real world planning and implementation of developmentally appropriate learning experiences for 3 to 5 year olds **Research in Young Children's Literacy and Language Development** Olivia N. Saracho,2019-12-13 The importance of the early years in young

children's lives and the rigid inequality in literacy achievement are a stimulating backdrop to current research in young children's language and literacy development. This book reports new data and empirical analyses that advance the theory of language and literacy with researchers using different methodologies in conducting their study with both a sound empirical underpinning and a captivating analytical rationalization of the results. The contributors to this volume used several methodological methods e.g. quantitative qualitative to describe the complete concept of the study, the achievement of the study and the study in an appropriate manner based on the study's methodology. The contributions to this volume cover a wide range of topics including dual language learners, Latino immigrant children, children who have hearing disabilities, parents and teachers' beliefs about language development, early literacy skills of toddlers and preschool children, interventions, multimodalities in early literacies, writing and family literacy. The studies were conducted in various early childhood settings such as child care, nursery school, Head Start, kindergarten and primary grades, and the subjects in the studies represent the pluralism of the globe, a pluralism of language backgrounds, ethnicity, abilities and disabilities. This book was originally published as a special issue of *Early Child Development and Care*. **Occupational outlook handbook, 2010-11 (Paperback)**, 1990 **JEBPS Vol 13-N2** *Journal of Evidence-Based Practices for Schools*, 2013-02-12. The *Journal of Evidence Based Practices for Schools* is a leader in publishing research to practice articles for educators and school psychologists. The mission of this journal is to positively influence the daily practice of school-based professionals through studies demonstrating successful research-based practices in educational settings. As a result, the editors are committed to publishing articles with an eye toward improving student performance and outcomes by advancing psychological and educational practices in the schools. They seek articles using non-technical language that 1. outline an evidence-based practice, 2. describe the literature supporting the effectiveness and theoretical underpinnings of the practice, 3. describe the findings of a study in which the practice was implemented in an educational setting, and 4. provide readers with information they need to implement the practice in their own schools in a section entitled Implementation Guidelines. The *Journal of Evidence Based Practices for Schools* differs from other scholarly journals in that it features articles that demonstrate empirically based procedures for readers to apply the practice in their setting. **The Trainee Teacher's Handbook** Carol Thompson, Peter Wolstencroft, 2021-03-03. If you are training to teach, *The Trainee Teacher's Handbook* is your essential training tool. This is exactly the book I needed when I was a trainee. It's full of practical advice; it offers great suggestions for reflection, and it gives you lots of ideas for developing as a teacher. Sue Cowley, Author and Educator. This book helps you to build skills and focus on developing your professional practice through understanding reflection and experimentation. Its practical structure and learning features help you to recognise your own learning needs and set your own targets. This new edition has been updated to include: A new chapter curriculum design including decolonising the curriculum. A new chapter on What they don't teach you in training. More support on mental health and wellbeing. **Teaching Children and Adolescents**
