Rebooting the American Dream Thom Hartmann, 2011-08-01 If we are going to live in a democracy we need to have a healthy middle class tells us what needs to be done to reclaim what it is to be American Eric Utne founder Utne Reader America does not need an upgrade For years the Right has been tampering with one of the best political operating systems ever designed The result has been economic and environmental disaster In this hard hitting book nationally syndicated radio and television host and bestselling author Thom Hartmann outlines eleven common sense proposals deeply rooted in America's history that will once again make America strong and Americans not corporations and billionaires prosperous Some of these ideas will be controversial to both the Left and the Right but the litmus test for each is not political correctness but whether or not it serves to revitalize this country we all love and make life better for its citizens **Living with ADHD**

Thom Hartmann, 2020-05-05 A practical system for those with ADHD to take back their personal power and embrace their unique talents for success in the modern world Explains how those with ADHD grow up wounded by the negative labels and attitudes surrounding them and their diagnosis Shares simple and fast acting techniques from neurolinguistic programming NLP to recalibrate painful memories into valuable learning experiences re pattern learned behaviors and negative habits and discover personal motivation Reveals how the novelty seeking behaviors of those with ADHD are valuable assets to society and should be embraced rather than suppressed One of the first rules of child rearing is condemn the behavior not the child Yet this commonsense rule doesn't seem to apply in the case of attention deficit disorder or ADHD where the very name of the condition implies that those labeled with it are disordered deficient and incapable of paying attention Those with ADHD grow up wounded told by teachers guidance counselors even parents that they are dysfunctional and unable to succeed in the normal world But as ADHD expert Thom Hartmann explains those with ADHD are capable of great success if they can shift the negative self image created by others and learn to work with their unique strengths In this accessible guide for adults with ADHD and the parents and teachers of ADHD children Hartmann offers a practical system of useful tools and strategies to heal the damage done to a person who grew up labeled as dysfunctional and help them cope with and succeed at daily life He explains how the character traits of ADHD were once valuable assets in hunter gatherer societies and that the later dominance of agricultural and industrial societies where farmer and worker skillsets excel left ADHD hunters as behavioral outcasts Sharing simple and often fast acting techniques from neurolinguistic programming NLP Hartmann explains how those with ADHD can take back their personal power recalibrate painful memories into valuable learning experiences shed fears and negative habits and rebuild their self image in a positive way By integrating the strategies in this book into daily life those with ADHD can transform their way of responding to the world discover personal motivation and teach their children to do the same As Hartmann reveals it is not ADHD that needs to be healed but our attitudes toward those born with the hunter gift **Moms with ADD** Christine Adamec, 2000-10-01 Agonize no more frustrated moms Moms
