Health Literacy A Prescription To End Confusion

Sarah Gehlert, Teri Browne

Health Literacy A Prescription To End Confusion:

Health Literacy Institute of Medicine, Board on Neuroscience and Behavioral Health, Committee on Health Literacy, 2004-06-29 To maintain their own health and the health of their families and communities consumers rely heavily on the health information that is available to them This information is at the core of the partnerships that patients and their families forge with today's complex modern health systems This information may be provided in a variety of forms ranging from a discussion between a patient and a health care provider to a health promotion advertisement a consent form or one of many other forms of health communication common in our society Yet millions of Americans cannot understand or act upon this information To address this problem the field of health literacy brings together research and practice from diverse fields including education health services and social and cultural sciences and the many organizations whose actions can improve or impede health literacy Health Literacy Prescription to End Confusion examines the body of knowledge that applies to the field of health literacy and recommends actions to promote a health literate society By examining the extent of limited health literacy and the ways to improve it we can improve the health of individuals and populations Health Literacy Lynn Nielsen-Bohlman, Allison M. Panzer, David A. Kindig, Institute of Medicine (U.S.). Committee on Health Literacy, 2004

Health Literacy - A Prescription to End Confusion , The Institute of Medicine was established in 1970 by the National Academy of Sciences to secure the services of eminent members of appropriate professions in the examination of policy matters pertaining to the health of the public Vish Viswanath and Patrick Weld of the Division of Cancer Control and Population Sciences of the National Cancer Institute Scott Ratzan of Johnson and Johnson and to Barbara DeBuono and Joel Rosenquist of the Pfizer Pharmaceutical Group for extra effort and repeated attention to the ongoing information needs and support of the study Recommendation 2.1 The Department of Health and Human Services and other government and private funders should support research leading to the development of causal models explaining the relationships among health literacy the education system the health system and relevant social and cultural systems 4.1 b The Office of Minority Health and Agency for Healthcare Research and Quality should develop measures of the relationships between culture language cultural competency and health literacy to be used in studies of the relationship between health literacy and health outcomes This includes addressing the appropriateness of research design and methods and the match among the readability of instruments the literacy level and the cultural and linguistic needs of study participants *Health Literacy in Nursing* Terri Ann Parnell, 2014-08-18 Print CourseSmart Optimizing Health Literacy for Improved Clinical Practices Papalois, Vassilios E., Theodosopoulou, Maria, 2018-06-15 Scientific evidence from different countries around the globe shows that those with low or inadequate health related knowledge and skills include all ages social and economic backgrounds The consequences of this inadequacy simultaneously affect individuals healthcare systems and society in many ways such as healthcare quality and cost Research on health literacy can provide insight on how to improve the communication of health issues raise

awareness and promote the lifelong learning of patients and healthcare professionals

Optimizing Health Literacy for Improved Clinical Practices examines the latest advances in providing and helping patients and medical professionals to understand basic health information and the services that are most appropriate Featuring coverage on a broad range of topics such as patient engagement mobile health and health communication this book is geared towards medical professionals hospital administrators healthcare providers academicians and researchers in the field
