Hearing Impairment Iep Goal Bank:

Enhancing Communication Skills of Deaf & Hard of Hearing Children in the Mainstream James J. Mahshie, 2005 With many children who are deaf or hard of hearing now integrated in mainstream classroom settings speech language pathologists and school based clinicians are encountering this population in growing numbers This book is designed to help clinicians who may have little or no experience with this population to understand its unique communication needs and develop clinical skills for working with them It takes a holistic view of children who are deaf or hard of hearing and stresses the child as a communicator rather than focusing on the disorder itself and provides a useful framework for viewing and assessing children s communication abilities and goals at all stages of language development It also includes specific assessment and treatment techniques to help develop and improve communication skills in order to maximize this populations potential for learning

Computer Applications for Augmenting the Management of Speech, Language, and Hearing Disorders Franklin H. Silverman, 1997 This is the first book in this field to examine computers and their impact on the study and practice of speech language pathology and audiology It introduces students to the multitude of ways that speech language pathologists and audiologists have used computers to provide clinical services more efficiently and more cost effectively With this information students will be better able to adequately promote the welfare of the persons they serve professionally in the managed health care cost containment environment in which they are likely to be required to practice in the near future
