Rethinking Participation in Global Governance Joost Pauwelyn, Martino Maggetti, Tim Büthe, Ayelet Berman, 2022-05-05 International organizations and other global governance bodies often make rules and decisions without input from many of the individuals groups firms and governments that are affected by them The standards of the Basel Committee on Banking Supervision for instance developed by a small number of states govern financial markets and the safety of bank deposits in over a hundred jurisdictions Historically the interests of developing countries as well as non commercial and diffuse interests within countries have been excluded or disregarded in global governance Scholars and practitioners have criticised this democratic deficit and called for greater participation of such marginalized stakeholders Against this background international institutions have introduced a variety of reforms with the goal of increasing and facilitating the participation of these excluded stakeholders This book brings together an expert group of scholars and practitioners to investigate the consequences of stakeholder participation reforms in the global governance of health and finance What reforms have been introduced Have these reforms given previously marginalized stakeholders a voice in global governance bodies What effect have these reforms had on the legitimacy and effectiveness of global governance To answer these questions the book examines treaty based intergovernmental organizations alongside newer forms of global governance such as trans governmental regulatory networks multi stakeholder partnerships and private standard setting bodies Through a series of

paired comparative analyses the book provides insights into the experiences of large emerging and smaller or lower income developing countries Brazil v Argentina China v Vietnam India v the Philippines in a diverse set of organizations including the World Bank and the World Health Organization the Basel Committee on Banking Supervision the Global Fund to Fight AIDS Tuberculosis and Malaria the International Accounting Standards Board Codex Alimentarius Commission and more

Explorations in Communication and History Barbie Zelizer, 2008-10-27 When and how do communication and history impact each other? How do disciplinary perspectives affect what we know? *Explorations in Communication and History* addresses the link between what we know and how we know it by tracking the intersection of communication and history. Asking how each discipline has enhanced and hindered our understanding of the other, the book considers what happens to what we know when disciplines engage. Through a critical collection of essays written by top scholars in the field, the book addresses the engagement of communication and history as it applies to the study of technology, audiences, and journalism. A comprehensive introduction by Barbie Zelizer contextualises these debates and makes a case for the importance of disciplinary engagement for teaching as well as research in media and cultural studies, and each section has a brief introduction to contextualise the essays and highlight the issues they raise, making this an invaluable collection for students and scholars alike.

Frenemies Jaime E. Settle, 2018-08-30 Social media is polarizing America; using Facebook causes Americans to negatively judge and stereotype those people with whom they disagree about politics. [How People Talk About Politics](#) Stephen Coleman, 2020-11-12 During the Brexit referendum campaign, it became clear how easily national conversations around politics could become raucous and bitter. This book explores the nature of talking about politically contentious issues and how our society can begin to develop a more constructive culture of political talk. Uniquely, this study focuses on citizens' own experiences and reflections on developing, practising, and evaluating their own political voices. Based on seventy in-depth interviews with a diverse range of people, Stephen Coleman explores the intricate nature of interpersonal political talk and what this means for public attitudes towards politics and how people negotiate their political identities. Engaging with a broad range of subjects from Political Communication to Sociology, this book offers valuable insight into how the public can discuss politically turbulent topics in a meaningful and constructive way.

Heritage Keywords Kathryn Lafrenz Samuels, Trinidad Rico, 2015-09-01 Situated at the intersection of scholarship and practice, *Heritage Keywords* positions cultural heritage as a transformative tool for social change. This volume unlocks the persuasive power of cultural heritage as it shapes experiences of change and crafts present and future possibilities from historic conditions by offering new ways forward for cultivating positive change and social justice in contemporary social debates and struggles. It draws inspiration from deliberative democratic practice with its focus on rhetoric and redescription to complement participatory turns in recent heritage work. Through attention to the rhetorical edge of cultural heritage, contributors to this volume offer innovative reworkings of critical heritage categories. Each of the fifteen chapters examines a key term from the field of heritage practice: authenticity, civil society, cultural diversity, cultural property, democratization, difficult heritage, discourse, equity, intangible heritage, memory, natural heritage, place, risk, rights, and sustainability, to showcase the creative potential of

cultural heritage as it becomes mobilized within a wide array of social political economic and moral contexts This highly readable collection will be of interest to students scholars and professionals in heritage studies cultural resource management public archaeology historic preservation and related cultural policy fields Contributors include Jeffrey Adams Sigrid Van der Auwera Melissa F Baird Alexander Bauer Malcolm A Cooper Anna Karlstr m Paul J Lane Alicia Ebbitt McGill Gabriel Moshenska Regis Pecos Robert Preucel Trinidad Rico Cecelia Rod hn Joshua Samuels Kathryn Lafrenz Samuels and Klaus Zehbe The SAGE Handbook of Political Communication Holli A Semetko,Margaret Scammell,2012-05-17 This authoritative and comprehensive survey of political communication draws together a team of the world s leading scholars to provide a state of the art review that sets the agenda for future study It is divided into five sections Part One explores the macro level influences on political communication such as the media industry new media technology and political systems Part Two takes a grassroots perspective of the influences of social networks real and online on political communication Part Three discusses methodological advances in political communication research Part Four focuses on power and how it is conceptualized in political communication Part Five provides an international regional and comparative understanding of political communication in its various contexts The SAGE Handbook of Political Communication is an essential benchmark publication for advanced students researchers and practitioners in the fields of politics media and communication sociology and research methods Disagreeing Agreeably Glen Smith,2019-06-18 This book facilitates civil discussion of controversial political issues Unique to this book is a section that explains how to discuss politics without feeling angry or hostile toward people who hold different beliefs In addition the book provides concise and accessible debates of contemporary policy issues including gun control immigration the Electoral College voting and affirmative action For each topic readers are shown that opposing arguments are based on values and concerns that are widely shared by most people regardless of their political leanings Perfect for students professors and citizens alike this book promotes civility without shying away from controversy

The Human Side of Service Engineering Christine Leitner,Clara Bassano,Debra Satterfield,2025-07-26 Proceedings of the 16th International Conference on Applied Human Factors and Ergonomics and the Affiliated Conferences Orlando Florida USA 26 30 July 2025 **The Silent Sex** Christopher F. Karpowitz,Tali Mendelberg,2014-08-24 Do women participate in and influence meetings equally with men Does gender shape how a meeting is run and whose voices are heard The Silent Sex shows how the gender composition and rules of a deliberative body dramatically affect who speaks how the group interacts the kinds of issues the group takes up whose voices prevail and what the group ultimately decides It argues that efforts to improve the representation of women will fall short unless they address institutional rules that impede women s voices Using groundbreaking experimental research supplemented with analysis of school boards Christopher Karpowitz and Tali Mendelberg demonstrate how the effects of rules depend on women s numbers so that small numbers are not fatal with a consensus process but consensus is not always beneficial when there are large numbers of women Men and women enter

deliberative settings facing different expectations about their influence and authority Karpowitz and Mendelberg reveal how the wrong institutional rules can exacerbate women's deficit of authority while the right rules can close it and in the process establish more cooperative norms of group behavior and more generous policies for the disadvantaged Rules and numbers have far reaching implications for the representation of women and their interests Bringing clarity and insight to one of today's most contentious debates *The Silent Sex* provides important new findings on ways to bring women's voices into the conversation on matters of common concern *Networked Media, Networked Rhetorics* Damien Smith Pfister, 2016-01-01

In *Networked Media Networked Rhetorics* Damien Pfister explores communicative practices in networked media environments analyzing in particular how the blogosphere has changed the conduct and coverage of public debate Pfister shows how the late modern imaginary was susceptible to deliberation traps related to invention emotion and expertise and how bloggers have played a role in helping contemporary public deliberation evade these traps Three case studies at the heart of *Networked Media Networked Rhetorics* show how new intermediaries including bloggers generate publicity solidarity and translation in the networked public sphere Bloggers flooding the zone in the wake of Trent Lott's controversial toast to Strom Thurmond in 2002 demonstrated their ability to invent and circulate novel arguments the pre 2003 invasion reports from the Baghdad blogger illustrated how solidarity is built through affective connections and the science blog RealClimate continues to serve as a rapid response site for the translation of expert claims for public audiences *Networked Media Networked Rhetorics* concludes with a bold outline for rhetorical studies after the internet Contesting the Nigerian State M. Okome, 2013-07-03

In public choice theory the received wisdom has long been that self organization is an impediment to collective action whether via the tragedy of the commons or a Hobbesian scenario in which self interest produces social conflict rather than cooperation Yet as this fascinating collection shows self organization and state society relations have been much more complicated in the context of contemporary Nigerian politics Given the absence or unwillingness of the Nigerian state to provide essential services entire communities have had to band together to repair roads build health centers and maintain public utilities all from levies The successes failures and ongoing challenges faced by Nigerian society provide valuable insights into the state's capacity its relationship with civil society and the social economic and political well being of its citizens **Political Phenomenology** Hwa Yol Jung, Lester Embree, 2016-06-13

This volume presents political phenomenology as a new specialty in western philosophical and political thought that is post classical post Machiavellian and post behavioral It draws on history and sets the agenda for future explorations of political issues It discloses crossroads between ethics and politics and explores border crossing issues All the essays in this volume challenge existing ideas of politics significantly As such they open new ways for further explorations BY future generations of phenomenologists and non phenomenologists alike Moreover the comprehensive chronological bibliography is unprecedented and provides not only an excellent picture of what phenomenologists have already done but also a guide for

the future **Beyond Instrumentalised Politics** Garrett Thomson, Scherto Gill, 2024-05-06 The weaknesses of aggregative representative democracy point to the current governments failures so prevalent in the West that there are few innovative alternatives Given that major global challenges all hinge on the transformation of public governance it has become a most pressing matter for humanity to re conceptualise future making approaches to governance This series aims to explore constructive and promising orientations to democracy *Democratic Innovations in Central and Eastern Europe* Sergiu Gherghina, Joakim Ekman, Olena Podolian, 2020-05-21 Democratic Innovations in Central and Eastern Europe expands research on democratic innovations by looking specifically at different forms of democratic innovations in Central and Eastern Europe The book covers direct democracy referendums in particular deliberative democracy practices and e participation forms which are salient in practice because they match the political realities of our time Expert contributors show how the recent actions of ordinary citizens in several Central and Eastern European countries have challenged the contemporary political order and grassroots movements and diverse forms of mobilization have challenged the notion of weak civil societies in the East The empirical evidence presented attempts to deepen citizen involvement in political contexts sometimes quite different from the democratic political systems in the Western world Using lessons from a still largely underexplored part of Europe the book both complements and revises theoretical approaches or complements empirical results in existing studies on democratic innovations Democratic Innovations in Central and Eastern Europe will be of great interest to scholars working on democracy political systems political engagement and Central and Eastern European politics The chapters originally published as a special issue of Contemporary Politics
