consultant led services which compounds the waiting time problem There is a need to increase capacity and the Department of Health should undertake an examination of the medium and long term demand for digital hearing aids The Committee notes the variation in practice in NHS audiology departments and believes many could operate more efficiently They should examine the skill mix and levels of training or experience necessary and look at more flexible approaches to service provision The report also comments on the involvement of the private sector to provide additional capacity and the entry into the market of others such as opticians The private services need to be monitored and the quality of care assessed on the same basis as that used for the NHS
