The Writer's Treasury of Ideas Linda Lewis, 2012 This book aims to answer the BIG question Where do writers get their ideas from Linda Lewis is a full time writer concentrating on short stories which are regularly published in the UK and Australia She is here to help get rid of your writer s block make your twist endings work and stop the sight of a blank page making your blood run cold **ECHOES OF ANCIENT AFRICAN VALUES** Joseph A. Bailey, II, M.D., F.A.C.S., 2005-07-18 Ancient Africans perhaps around 5500 BC established a tradition based upon truth goodness beauty and other immaterial and intangible aspects of things of worth Believing all of God s creations were forever linked they focused on having good

relations with and behaviors toward fellow human beings and with nature both for the purpose of reaching a heaven afterlife. Out of these concepts arose the sense of community including the practice of no person being left behind. Echoes of Ancient African Values discusses who Ancient Africans were as a people, their genius and creative ways of thinking, their philosophical and spiritual foundations, and their world-shaping achievements. Unfortunately, peoples throughout the world have failed to realize or acknowledge the fact that Ancient Africans have produced the most brilliant civilization and culture the world has ever known. This applies whether the measure is by significance, greatness, or numbers. The fashioning of such brilliance inside high morals not only transcended space and time but also designed sublime echoes. A major premise of this book is that these echoes were extremely instrumental in enabling Ancient African slaves to survive their hellish situation as well as having ongoingly contributed to the recovery of Black Americans from the effects of slavery. Numerous examples are given. Otherwise, what is stressed to all peoples in the world is that Ancient African Values contain workable answers for solving every type of problem concerning humanity.

Fundamentals of Sociology Rajendra Kumar Sharma, 1996. This book covers courses prescribed in Indian universities in sociology for the papers Principles of Sociology, Essentials of Sociology, Fundamentals of Sociology, etc. Meant to serve as a textbook, it discusses all the essentials and leaves out those topics which are irrelevant. Thus, it is at once concise, relevant, and also detailed and exhaustive. It deals with social phenomena, society, social institutions and associations, communities, groups, and factors determining these. It includes social change, social control, and social processes. While its subject matter has been drawn from standard books published in the West, it has been discussed in an Indian setting. While its method of presentation is analytic, it has adopted a holistic and integral approach on controversial issues with actual university questions at the end of each chapter. This book intends to deliver first division at the examination.
