the ordinary lament is the author's palpable sense of care and compassion. The Washington Post Book World: Our national consciousness has been altered by haunting images of mass slaughters in American high schools carried out by troubled young boys with guns. It's now clear that no matter where we live or how hard we try as parents, our children are likely to be going to school with boys who are capable of getting guns and pulling triggers. What has caused teen violence to spread from the urban war zones of large cities right into the country's heartland? And what can we do to stop this terrifying trend? James Garbarino, Ph.D., Cornell University professor and nationally noted psychologist, insists that there are things that we both as individuals and as a society can do. In a richly anecdotal style, he outlines warning signs that parents and teachers can recognize and suggests steps that can be taken to turn angry and unhappy boys away from violent action. Full of insight, vivid individual portraits, practical advice, and considered hope, this is one of the most important and original books ever written about boys.
