Periphery? Translating Portugal Back and Forth João Ferreira Duarte, Rita Bueno Maia, Marta Pacheco Pinto, 2015-09-18 This volume is a result of the need to reflect upon Portugal's position from the viewpoint of the literary assets imported and exported through translation. It brings together a number of scholars working in the field of Translation Studies directly concerned with the Portuguese cultural system in order to analyse this question from various theoretical perspectives and from case studies of translation flows and movements in Portuguese culture. By Translating Portugal Back and Forth the articles discuss issues such as how can one draw the borderline between a peripheral and a semi-peripheral system. Is this borderline useful or necessary? How peripheral is the Portuguese cultural system as far as translation transfers are concerned? How stable or pacific has this positioning been? Does the economic and historical perception of Portugal as peripheral entail that from the viewpoint of translation it would behave similarly? By addressing some of these questions and as shown by the second subtitle *Essays in Honour of João Ferreira Duarte* the volume pays homage to one of the most prominent Translation Studies scholars in Portugal who has extensively reflected on the binary discourse on translation, its metaphors and images.

Edizione annotata: Le tigri di Mompracem, I misteri della Jungla nera Emilio Salgari, 1969 **World's Fairs**

Italian-Style Cristina Della Coletta, 2006-12-15 According to conventional wisdom Italy was not an influential participant in the nationalistic and imperialistic discourses that world's fairs produced in countries such as Great Britain, France and the United States. In the late nineteenth and early twentieth centuries, however, Italy hosted numerous national and international exhibitions expounding notions of national identity, imperial expansion, technological progress and capitalist growth. *World's Fairs Italian Style* explores world's fairs in Italy at the turn of the twentieth century in comparison to their more famous counterparts in France, England and the United States. Cristina Della Coletta demonstrates that because of its social fragmentation and hybrid history, Italy was a site of both hegemony and subordination, an aspiring imperial power whose colonization started from within. She focuses on two best-selling authors, Emilio Salgari and Guido Gozzano, and illustrates how these authors interpreted their age's exposition mentality. Salgari and Gozzano's exposition narratives, Della Coletta argues, reveal Italy's uncertainties about its own sense of national identity and its belated commitment to Western imperialism. Of interest to students and scholars of literature, cultural history and Italian *World's Fairs Italian Style* provides a fascinating glimpse into a hitherto unexplored area of study and brings to light a cultural phenomenon that played a significant role in shaping Italy's national identity. *I misteri della jungla nera* Emilio Salgari, 1903 *I misteri della giungla nera* Emilio Salgari, 2021-10-29 Emilio Salgari stato uno degli scrittori italiani di romanzi d'avventura fra i più popolari.
