150. The first step in the process of determining the value of a company is to determine the value of its assets. This is done by identifying the company's assets and estimating their fair market value. The next step is to determine the value of the company's liabilities. This is done by identifying the company's liabilities and estimating their fair market value. The final step is to determine the value of the company's equity. This is done by subtracting the value of the company's liabilities from the value of its assets.
