God And Logic In Islam The Caliphate Of Reason:

God and Logic in Islam John Walbridge, 2010-11-15 This book investigates the central role of reason in Islamic intellectual life Despite widespread characterization of Islam as a system of belief based only on revelation John Walbridge argues that rational methods not fundamentalism have characterized Islamic law philosophy and education since the medieval period His research demonstrates that this medieval Islamic rational tradition was opposed by both modernists and fundamentalists resulting in a general collapse of traditional Islamic intellectual life and its replacement by more modern but far shallower forms of thought However the resources of this Islamic scholarly tradition remain an integral part of the Islamic intellectual tradition and will prove vital to its revival The future of Islam Walbridge argues will be marked by a return to rationalism

Ibn Miskawayh, the Soul, and the Pursuit of Happiness John Peter Radez, 2019-10-17 Ibn Miskawayh the Soul and the Pursuit of Happiness explores the moral philosophy and context of Ibn Miskawayh 932 1030 an advocate of the intellectually cultivated life with a strong religious bent Though not necessarily a major innovator he sought through his writings to provide a moral compass for turbulent times much like thinkers such as Petrarch 1304 1374 Pico della Mirandola 1463 1494 Francois Rabelais 1494 1553 Montesquieu 1689 1755 or more recently Mortimer Adler 1902 2001 Despite the tumultuous times in which they lived these thinkers offered the world hope through a humanism that cultivated both civic and moral character Whether directly expressed in his moral philosophy or illustrated in the examples of renowned or notorious historical figures Miskawayh's core idea is that one's character is much easier kept than recovered In this book

John Peter Radez shows how Miskawayh stands out not only as one of Islam's first ethicists but also one of its true intellectuals, thinker, historian, codifier of the science of adab and a truly happy sage who represented the best of his generation's intellectual and cultural elite. Miskawayh's message of how to create lives worthy of human beings, his civic humanism, resonates today. **Islam, Religious Liberty and Constitutionalism in Europe** Mark Hill KC, Lina Papadopoulou, 2024-02-08. For centuries since the Roman Empire's adoption of Christianity, the continent of Europe has been perceived as something of a Christian fortress. Today, the increase in the number of Muslims living in Europe and the prominence of Islamic belief pose questions not only for Europe's religious traditions but also for its constitutional make-up. This book examines these challenges within the legal and political framework of Europe. The volume's contributors range from academics at leading universities to former judges and politicians. Its 19 chapters focus on constitutional challenges, human rights, with a focus on religious freedom, securitisation, and Islamophobia, while adopting supranational and comparative approaches. This book will appeal not merely to academics and law students in the UK and the EU but to anyone involved in diplomacy and international relations, including political scientists, lobbyists, and members of NGOs. It explores these contested relationships to open up new spaces in how we think about religious freedom and co-existence in Europe and the crucial role that Islam has had and continues to have in its development. **A New Introduction to Islam** Daniel W. Brown, 2017-04-24. Covering the origins, key features, and legacy of the Islamic tradition, the third edition of *A New Introduction to Islam* includes new material on Islam in the 21st century and discussions of the impact of historical ideas, literature, and movements on contemporary trends. Includes updated and rewritten chapters on the Qur'an and hadith literature that covers important new academic research. Compares the practice of Islam in different Islamic countries as well as acknowledging the differences within Islam as practiced in Europe. Features study questions for each chapter and more illustrative material, charts, and excerpts from primary sources. *The Rise of Early Modern Science* Toby E. Huff, 2017-06-06. Now in its third edition, *The Rise of Early Modern Science* argues that to understand why modern science arose in the West, it is essential to study not only the technical aspects of scientific thought but also the religious, legal, and institutional arrangements that either opened the doors for enquiry or restricted scientific investigations. Toby E. Huff explores how the newly invented universities of the twelfth and thirteenth centuries and the European legal revolution created a neutral space that gave birth to the scientific revolution. Including expanded comparative analysis of the European, Islamic, and Chinese legal systems, Huff now responds to the debates of the last decade to explain why the Western world was set apart from other civilisations. *Scientific Development in Islamic Civilization* Aijaz Ahmad, 2023-01-01. This book, *Scientific Development in Islamic Civilization*, is a humble effort to highlight the scientific research conducted by Islamic scholars of the mediaeval world between the seventh and seventeenth centuries. The Quranic verses and the traditions of the Prophet dealing with scientific enterprise have also been analysed and quoted in this work. The works of the majority of Muslim scientists are also

discussed in depth The scientific development during the periods of various ruling dynasties and caliphates is properly mentioned in various chapters Above all the goal of writing this book is to make Muslims in particular and non Muslims in general aware of the glorious past of Islamic civilization which has been washed out or purposefully ignored in historical texts these days

Ibn Al-Arabi's Fusus Al-Hikam Binyamin Abrahamov,2015-03-24 Ibn al Arabi s *Fusus al Hikam* is a translation of one of the most important works written on Islamic Mysticism Muhyi al Din Ibn al Arabi

1165-1240 is deemed the greatest mystic of Islam and his mystical philosophy has attracted the attention of both Muslims and non-Muslims from his time to the present day. Believing that the world is the self-manifestation of God, he claimed that all religions are equal and that the perfect human being is he who knows all the religious phenomena in the world. *Fusus al-hikam* examines the singular characteristics of twenty-seven prophets of Islam and constitutes the best summary of Ibn al-Arabi's thought. The translation of these twenty-seven chapters is preceded by an introduction that explains the main ideas of Ibn al-Arabi and is accompanied by explanatory notes to the text. Providing an easily accessible translation of one of the greatest mystics of Islam, *Ibn al-Arabi Fusus al-Hikam* is essential reading for students, scholars, and researchers of Islamic Philosophy, Mysticism, and Islamic Mysticism in particular.

Ibn al-'Arabī and Islamic Intellectual Culture Caner K Dagli, 2016-02-05 Ibn al-Arabi (d. 1240) was one of the towering figures of Islamic intellectual history and among Sufis still bears the title of *al-shaykh al-akbar* or the greatest master. Ibn al-Arabi and Islamic Intellectual Culture traces the history of the concept of oneness of being (*wahdat al-wujud*) in the school of Ibn al-Arabi in order to explore the relationship between mysticism and philosophy in Islamic intellectual life. It examines how the conceptual language used by early mystical writers became increasingly engaged over time with the broader Islamic intellectual culture, eventually becoming integrated with the latter's common philosophical and theological vocabulary. It focuses on four successive generations of thinkers: Sadr al-Din al-Qunawi, Mu'ayyad al-Din al-Jandi, Abd al-Razzaq al-Kashani, and Dawud al-Qaysari, and examines how these philosopher-mystics refined and developed the ideas of Ibn al-Arabi. Through a close analysis of texts, the book clearly traces the crystallization of an influential school of thought in Islamic history and its place in the broader intellectual culture. Offering an exploration of the development of Sufi expression and thought, this book will be a valuable resource for students and scholars of Islamic thought, philosophy, and mysticism.

The Revolution Within Yasmin Moll, 2025-04-01 The New Preachers of Egypt, so named because of their novel preaching styles which incorporate everything from melodrama to music to self-help, came to prominence on the world's first Islamic television channel on the cusp of the Arab Spring uprisings. They promoted an innovative and inclusive Islamic piety that millions of young middle-class viewers found radical and compelling but were scorned as neoliberal by leftists, as stealth Islamists by secularists, and as too Westernized by other Muslim preachers. Drawing on long-term fieldwork with the New Preachers, their producers, and followers in Cairo, Yasmin Moll shows how Islamic media and the social life of theology mattered to contestations over the shape of a New Egypt. These mass-mediated fractures within Islamic Revivalism were happening at a time of both revolutionary possibility and authoritarian entrenchment. The New Preachers' Islamic media inspired a revolution within that transcended the country's divisions and anticipated the ethos of creativity, solidarity, and coexistence that soon would mark Tahrir Square, the ethical epicenter of the 2011 uprising. Vividly written and boldly theorized, *The Revolution Within* challenges conventional accounts of the 2011 revolution and its aftermath as a struggle between secular and religious forces, reconsidering what makes a practice virtuous.
