Object and Apparition Maya Stanfield-Mazzi, 2013-09-26 When Christianity was imposed on Native peoples in the Andes visual images played a fundamental role yet few scholars have written about this significant aspect Object and Apparition proposes that Christianity took root in the region only when both Spanish colonizers and native Andeans actively envisioned the principal deities of the new religion in two and three dimensional forms The book explores principal works of art involved in this process outlines early strategies for envisioning the Christian divine and examines later more effective approaches Maya Stanfield Mazzi demonstrates that among images of the divine there was constant interplay between concrete material objects and ephemeral visions or apparitions Three dimensional works of art specifically large scale statues of Christ and the Virgin Mary were key to envisioning the Christian divine the author contends She presents in depth analysis of three surviving statues the Virgins of Pomata and Copacabana Lake Titicaca region and Christ of the Earthquakes from Cusco Two dimensional painted images of those statues emerged later Such paintings depicted the miracle working potential of specific statues and thus helped to spread the statues fame and attract devotees Statue paintings that depict the statues enshrined on their altars also served the purpose of presenting images of local Andean divinities to believers outside church settings

Stanfield Mazzi describes the unique features of Andean Catholicism while illustrating its connections to both Spanish and Andean cultural traditions Based on thorough archival research combined with stunning visual analysis Object and Apparition analyzes the range of artworks that gave visual form to Christianity in the Andes and ultimately caused the new religion to flourish **Indians and Mestizos in the "Lettered City"** Alcira Duenas,2010-06-15 Through newly unearthed texts virtually unknown in Andean studies Indians and Mestizos in the Lettered City highlights the Andean intellectual tradition of writing in their long term struggle for social empowerment and questions the previous understanding of the lettered city as a privileged space populated solely by colonial elites Rarely acknowledged in studies of resistance to colonial rule these writings challenged colonial hierarchies and ethnic discrimination in attempts to redefine the Andean role in colonial society Scholars have long assumed that Spanish rule remained largely undisputed in Peru between the 1570s and 1780s but educated elite Indians and mestizos challenged the legitimacy of Spanish rule criticized colonial injustice and exclusion and articulated the ideas that would later be embraced in the Great Rebellion in 1781 Their movement extended across the Atlantic as the scholars visited the seat of the Spanish empire to negotiate with the king and his advisors for social reform lobbied diverse networks of supporters in Madrid and Peru and struggled for admission to religious orders schools and universities and positions in ecclesiastic and civil administration Indians and Mestizos in the Lettered City explores how scholars contributed to social change and transformation of colonial culture through legal cultural and political activism and how ultimately their significant colonial critiques and campaigns redefined colonial public life and discourse It will be of interest to scholars and students of colonial history colonial literature Hispanic studies and Latin American studies

Indigenous Concepts of Health and Healing in Andean Populations Elizabeth Currie,John Schofield,2024-08-29 This book uses archaeology and ethnohistory to explore the evidence for the survival of ancestral beliefs and practices related to health and healing in Indigenous Andean communities The authors argue that through determining the nature of the survival of beliefs around health and healing important insights are gained into how people develop adaptive strategies for survival in a way that allows a continuity of identity and integrity The book works through various stages of research to arrive at its conclusions Firstly through archaeology and ethnohistory it establishes a baseline of key ancestral pre European Indigenous Andean beliefs related to health illness and healing It then proceeds to review the evidence for the survival of these ancestral beliefs and practices related to Indigenous pre European Andean epistemologies and ontologies Analysing the results of the first two sections the final part reflects on the narratives around ancestral beliefs and practices and how they influence lived experience in the contemporary world In essence this book deals with the question How do people manage change a universal question relevant to humanity at any time and stresses the need to recognise the significance of cultural diversity intangible heritage and plurality This interdisciplinary study is for researchers in ethnohistory anthropology medical anthropology archaeology history heritage and Indigenous studies **Modern Inquisitions** Irene Silverblatt,2004-10-29
