Handbook of Research on Student-Centered Strategies in Online Adult Learning Environments Fitzgerald, Carlton J.,Laurian-Fitzgerald, Simona,Popa, Carmen,2018-06-08

As traditional classroom settings are transitioning to online environments teachers now face the challenge of using this medium to promote effective learning strategies especially when teaching older age groups Because adult learners bring a different set of understandings and skills to education than younger students such as more job and life experiences the one size fits all approach to teaching does not work thus pushing educators to create a student centered approach for each learner The Handbook of Research on Student Centered Strategies in Online Adult Learning Environments is an important resource providing readers with multiple perspectives to approach issues often associated with adult learners in an online environment This publication highlights current research on topics including but not limited to online competency based education nontraditional adult learners virtual classrooms in public universities and teacher training for online education This book is a vital reference for online trainers adult educators university administrators researchers and other academic professionals looking for emerging information on utilizing online classrooms and environments in student centered adult education

Citizens of Worlds Jennifer Gabrys,2022-11-15 An unparalleled how to guide to citizen sensing practices that monitor air pollution Modern environments are awash with pollutants churning through the air from toxic gases and intensifying carbon to carcinogenic particles and novel viruses The effects on our bodies and our planet are perilous Citizens of Worlds is the first thorough study of the increasingly widespread use of digital technologies to monitor and respond to air pollution It presents practice based research on working with communities and making sensor toolkits to detect pollution while examining the political subjects relations and worlds these technologies generate Drawing on data

from the Citizen Sense research group which worked with communities in the United States and the United Kingdom to develop digital sensor toolkits Jennifer Gabrys argues that citizen oriented technologies promise positive change but then collide with entrenched and inequitable power structures She asks Who or what constitutes a citizen in citizen sensing How do digital sensing technologies enable or constrain environmental citizenship Spanning three project areas this study describes collaborations to monitor air pollution from fracking infrastructure to document emissions in urban environments and to create air quality gardens As these projects show how people respond to care for and struggle to transform environmental conditions informs the political subjects and collectives they become as they strive for more breathable worlds
