Glickman,2012-03 Indiana Jones meets The Da Vinci Code in an old Egyptian synagogue the amazing story of one of the most important discoveries in modern religious scholarship In 1896 Rabbi Solomon Schechter of Cambridge University stepped into the attic of the Ben Ezra Synagogue in Cairo Egypt and there found the largest treasure trove of medieval and early manuscripts ever discovered He had entered the synagogue s genizah its repository for damaged and destroyed Jewish texts which held nearly 300 000 individual documents many of which were over 1 000 years old Considered among the most important discoveries in modern religious history its contents contained early copies of some of the Dead Sea Scrolls early manuscripts of the Hebrew Bible and other sacred literature The importance of the genizah s contents rivals that of the Rosetta Stone and by virtue of its sheer mass alone it will continue to command our attention indefinitely This is the first accessible comprehensive account of this astounding discovery It will delight you with its fascinating adventure story why this enormous collection was amassed how it was discovered and the many lessons to be found in its contents And it will show you how Schechter s find though still being unpacked today forever transformed our knowledge of the Jewish past Muslim history and much more **The Book of Words** Rabbi Lawrence Kushner,2011-04-01 According to the Hebrew Bible God made the world with words God just spoke and the world became reality The Aramaic for I create as I speak is avara k davara or in magician s language abracadabra This does not protect words from the numbing effects of overuse in any religious tradition We need to dust off the words shake away the accretions wonder again about what they originally might have meant and enable ourselves to live in the word from the Introduction With creativity and poetry and

occasional heresy Kushner dusts off thirty classical Hebrew words shakes them free of the effects of generations of overuse re translates them and liberates their ancient holy power The result is a contemporary spiritual guide for your personal religious life According to the Hebrew Bible God made the world with words God just spoke and the world came into being Words therefore are not merely sounds signifying something else they are instruments of creation primary reality itself They need only to be read spoken and interpreted And to know them is to know reality itself Kushner has designed the book himself seamlessly blending graphics and content In doing so he evokes the aesthetics of an ancient manuscript and a vision of our power to shape the future Each finely crafted chapter begins with a Hebrew word and Kushner s provocative English translation At the bottom of the page is a transliteration of the Hebrew along with its more customary English rendering In addition to his own intriguing definition he includes a biblical citation anchoring the word along with a more recent text showing the word s evolution Finally we are offered a personal meditative exercise designed to enable you to live in the word
