Valea,2020-02-20 We often hear that alternative medicine is superior to classical medicine for it treats us holistically both the physical body and the immaterial part of our nature Although such an approach seems desirable it is precisely this aspect that opens the door to spiritual views incompatible with Christianity Many forms of alternative medicine speak of a divine essence we allegedly possess of a vital force that we can manipulate of spiritual beings that can help us and other such views closely related to Eastern religions and New Age thought In their desire to find healing at any price Christians often resort to these methods without realizing the spiritual danger involved For Christians who want to live consistently with their faith this book is intended to raise awareness of the hidden beliefs of alternative medicine **INTEGRATIVE HOLISTIC HEALTH, HEALING, AND TRANSFORMATION** Penny Lewis,2002-01-01 The goal of this book is to begin to present the fundamental body of knowledge which informs current approaches in complimentary and alternative medicine and to explore the role of the new professions of integrative holistic health practitioner consultant and administrator This book is designed to compliment enhance deepen and broaden the

reader's existing expertise through an integrative approach which will improve his/her ability to consult design programs and work in a variety of settings with various populations including those with medical and psychological conditions as well as those who wish to support their health and well-being. The book provides the necessary conceptual foundational frameworks for exploring how practitioners in a field of alternative medicine/holistic health know what they know in support of their work. These core ways of knowing give them a foundation for evaluating their work, new advances in the field, and affords them interrelated frames of knowledge for their continued research expansion and integrative work in the field. Trained holistic health practitioners who may have applied one or more of these paradigms may now be able to expand their foundational and conceptual base, thereby broadening their theory and techniques that are appropriate to their professional arenas. Section I is designed to explore general ways of knowing and meaning-making in holistic health. Section II is designed to offer the reader practitioner methodology regarding the creation and implementation of holistic health centers, programs, and integrated consultation practices. Finally, Section III offers examples of integrative holistic health clinicians who combine and synthesize a variety of holistic health approaches and paradigms into their practices as practitioners, healers, therapists, and consultants.

Process Theology and Healing Bruce G. Epperly, 2023-12-05 Religious and spiritual healing practices are often seen as a show in which a healer claims to physically cure someone through actions or words. These healings mostly fail. In this booklet, the third of three that integrate process theology with contemporary spiritual life and activity, Bruce Epperly presents a very different view of healing. He calls for a healing ministry, but one that finds God in all things and uses scientific medicine, healing ritual practices, and prayer in concert, sometimes for spiritual healing but also for a way to live out the challenge of illness, to face death with dignity, and yes, sometimes for a cure that appears miraculous. He applies these healing practices not just to human beings but to all life and to the planet we live on. Healing is not the province of a few calling on supernatural forces. Rather, it is a cooperation with the energies God has placed in the universe. Rather than supernatural, it is more natural than anything. Epperly is a specialist in bringing difficult concepts to life for everyone. He combines that skill with the short format of the Topical Line Drives series to present a call for all of us to be healed and to become healers as part of God's call to life and light. This book may well be the call you need to hear to find wholeness, Shalom, in your life and your relationships to others and this world.
