dread the approach of their fiftieth birthdays fearing it's goodbye to good times and good looks Others barely notice the transition they know how to welcome each age for its particular blessings These are the women Jaki Scarcello calls Women of the Harvest women who aren't trying to turn back the clock but reaping the fruits of a life well lived recognising and receiving the real gifts this stage of life brings Women for whom fifty plus doesn't mean less but more Drawing on her own experience as well as exhaustive research into other women's stories a series of interviews conducted in five countries

Scarcello shows with wisdom and wit how changing our attitude toward ageing can bring about a virtuous cycle of rejuvenation Women who know this embrace the years after 50 with a spirit of optimism and energy that is truly liberating They understand that in maturity a woman has the potential for genuine elegance a beauty more than skin deep that sparkles confidently and generously from the eyes and a whole new brand of personal sexiness On a deeper level they possess a secret power and joy which radiates outward into the world and illuminates everyone around them These women who blossom in their 50s know that their time of life is a time of grace and that it s richer and more ripe with possibility now than at any other time in our history Through their stories there runs a common thread of spiritual transformation the harvest of a good life when it starts to divest itself of youth s superficial anxieties In the space that opens up beyond 50 experience and potential form a perfect fusion this is the most fertile ground a woman ever knows *From Hormone Hell to Hormone Well* Genie James,C. The Midlife Woman's Guide to Thriving Dr I Pearson,2025-02-15 We re told that our midlife is about slowing down

settling in or quietly fading into the background but that's not how it should be. Midlife isn't the end of anything; it's the beginning of something powerful when we finally get to put ourselves first, not because everything is falling apart but because we've earned it. Your body is changing, your priorities are shifting. This is my guide to thriving, not just getting through midlife but embracing it. I'll talk about our confidence, joy, beauty, self-care, relationships, reinvention, and stepping into this next chapter with excitement, not fear. You're not here to shrink; you're here to shine. And midlife is the perfect time to do it.

The Estrogen Window Mache Seibel, 2016-04-12. When administered at the right time, estrogen therapy can lead to substantial improvements in a woman's quality of life. Yet for more than a decade, women have been told about many worrisome side effects of hormone replacement therapy, including an increased risk of cancer, blood clots, and heart disease. In *The Estrogen Window*, Dr. Mache Seibel shows that not taking estrogen at the right time following menopause actually increases the risk of suffering one of those events. Falling estrogen levels also increase a woman's risk for heart disease and Alzheimer's, as well as osteoporosis. Dr. Seibel presents groundbreaking research that proves how every woman has an estrogen window, an ideal time to begin estrogen replacement which can minimize menopausal symptoms such as hot flashes, night sweats, mood swings, fractured sleep, brain fog, irritability, and weight gain. Not only can women safely take estrogen during this window, but also taking the hormone this way provides a wide range of health benefits that guarantee women increased protection from the very conditions they have been led to fear most.
