2002 my life which all along had been filled with many of these blessings lessons or blessings as I called them presented the greatest challenge my family and I would have to face yet Robert Lee author A Strange Manuscript Found in a Copper Cylinder James De Mille, 2021-11-16 A Strange Manuscript Found in a Copper Cylinder 1888 is a novel by James De Mille. Originally serialized in Harper's Weekly the novel was published posthumously and at first anonymously. Although De Mille's work predated such popular Lost World novels as H. Rider Haggard's *She* 1887 and King Solomon's Mines 1885 it was published nearly a decade after his death leading critics to assume he had merely written a derivative work of fiction. Recent scholarship however has sought to emphasize De Mille's talents as a writer and importance in the historical development of literary science fiction. The wind had failed a deep calm had succeeded and everywhere as far as the eye could reach the water was smooth and glassy. The yacht rose and fell at the impulse of the long ocean undulations and the creaking of the spars sounded out a lazy accompaniment to the motion of the vessel. Sailing in their yacht a crew spots a copper cylinder afloat on the sunbeaten sea. Hauling it aboard they open it to reveal a manuscript sealed from the elements containing the story of Adam More Shipwrecked while returning to Britain from Tasmania the sailor found himself stranded on a strange desert island near Antarctica. Soon he stumbles upon a lost world of prehistoric plants and animals a land of indescribable beauty and wonder. In the harsh volcanic landscape he discovers a race of humans whose values are entirely foreign to his Western frame of mind. With a beautifully designed cover and professionally typeset manuscript this edition of James De Mille's *A Strange Manuscript Found in a Copper Cylinder* is a classic work of American science fiction reimagined for modern readers.
