Key Concepts In Public Health Sage Key Concepts Series:

Key Concepts in Public Health Frances Wilson, Andi Mabhala, 2008-12-04 Key Concepts in Public Health identifies fifty key concepts used across the discipline of public health in order to give the reader a broad perspective of the core topics relevant to training and practice From epidemiology to health promotion and ethics to leadership the book offers an exciting guide to the multiprofessional field Each entry features a snapshot definition of the concept a broader discussion addressing the main issues and links to practice key points relevant to the entry case studies to illustrate the application to practice and examples of further reading

Key Concepts in Public Health, 2009 Identifies key concepts used across the discipline of public health in order to give the reader a broad perspective of the core topics relevant to training and practice Publisher description

Key Concepts in Public Health Frances Wilson, Andi Mabhala, 2008-11-19 This is a very good text for undergraduate students as it gives a broad overview of the concept of public health utilising case studies to illustrate practical application This book would be also be an excellent way for practitioners to increase their own knowledge of public health and could inform their own continuing professional development Julie Lempriere University of Gloucestershire Key Concepts in Public Health identifies fifty key concepts used across the discipline of public health in order to give the reader a broad perspective of the core topics relevant to training and practice From epidemiology to health promotion and ethics to leadership the book offers an exciting guide to the multiprofessional field Each entry features a snapshot definition of the concept a broader discussion addressing the main issues and links to practice key points relevant to the entry case studies to illustrate the application to practice examples of further reading Highly readable with clear indexing and cross referencing this is an ideal book to turn to for learning more about key issues in public health practice and education The clever structure means the book can be read in its entirety to support a programme of study or readers can use it to dip into and update their knowledge of a particular concept It meets the validation requirements of all allied health and nursing training programmes and will also be invaluable for policy makers and healthcare practitioners continuing their professional education

Key Concepts in Health Studies Chris Yuill, 2010 This textbook provides a guide to the central concepts used across health studies and offers the reader a comprehensive overview of the core topics theories and debates It draws together the fundamentals within the disciplines of health nursing and social policy

Community and Public Health Education Methods Bensley, 2017-12-22 Updated and revised to keep pace with changes in the field the fourth edition of Community Health Education Methods A Practical Guide teaches students to effectively communicate health education messages and positively influence the norms and behaviors of both individuals and communities This text explores the methods used by health educators including didactic techniques designed to guide others toward the pursuit of a healthy lifestyle

Ecological Health Maya K. Gislason, 2013-09-11 Drawing on ecosystem thinking complexity and postnormal science Ecological Health offers a radical new way of thinking about the health issues of the 21st Century This volume reflects on

recent social scientific engagement with Ecosystem Health research and practice and sets out a vision for the future

Tourism: The Key Concepts Peter Robinson, 2012-10-12 Tourism The Key Concepts offers a comprehensive collection of the most frequently used and studied concepts in the subject of tourism Within the text key terms concepts typologies and frameworks are examined in the context of the broader social sciences blending together theory and practice to explore the scope of the subject Terms covered include Ethical Tourism LGBT Tourism Hospitality Mobility Authenticity Quality Management Destination Management Geographies of Tourism Planning Sociology in Tourism Society and Culture Tourism Strategy Each entry contextualises defines and debates the concept discussed providing an excellent starting point for those studying tourism for the first time and a quick reference for those who are more experienced With case studies examples and further reading throughout this text will be invaluable for all undergraduate and postgraduate tourism students Oxford Textbook of Global Public Health Roger Detels, Martin Gulliford, Quarraisha Abdool Karim, Chorh Chuan Tan, 2017 Sixth edition of the hugely successful internationally recognised textbook on global public health and epidemiology comprehensively covering the scope methods and practice of the discipline **Australia's Toxic Medical Culture** Vicki Adele Pascoe, 2018-10-11 This book explores dominance in Australia's medical culture through the positioning of international medical graduates IMGs It argues that IMGs are othered and ultimately positioned as an underclass a positioning validated and reinforced by the intersecting inequalities of class race and nation It also suggests that the positioning of IMGs is organised through the dimensions of structural power hegemonic power and interpersonal power which allow an exploration of power relations between the structures of the health system the Australian medical profession and the agency of IMGs The Australian narrative presented to the world espouses a community of social justice and human rights Instead an historical lens traces the formation and persistence of difference represented in ethnocentrism racism and xenophobia from 1788 to the present The research presented is multidisciplinary in scope An anti oppressive theoretical framework enables the voices of lived experience to penetrate throughout and a social justice platform engages the participants and the reader into the interwoven conversations The data set comprises a focus group 10 individual interviews with IMGs and a selection of inquiry submissions revealing rich and sometimes shocking evidence to paint a stark picture Other medical voices join the conversation via media responses to revelations of experiences not only by IMGs but also by Australian trained doctors It exposes a toxic culture endemic with bullying and sexual harassment This book is of interest to practitioners researchers and administrators in the fields of medical education human resource management legal studies health sciences social sciences health services government departments universities and hospitals as well as those tasked with duty of care and the provision of a safe workplace The voices gifted to this study raise awareness of current issues within medicine in Australia at a very personal level and begin to formulate a policy and practical response to address these disturbing revelations Health Visiting Karen A. Luker, Gretl A. McHugh, Rosamund M. Bryar, 2016-07-22 The fourth

edition of this seminal text retains its focus on placing the health visitor at the forefront of supporting and working with children families individuals and communities Health Visiting Preparation for Practice has been fully revised and updated to reflect the changes and developments in health policy public health priorities and health visiting It considers the public health role of the health visitor and the important role and responsibilities the health visitor has with safeguarding children to ensure the child has the best possible start in life Key features Fully updated throughout with new content on practice and policy developments Takes into account the challenges and changing role of the health visitor and the need to ensure that their practice is evidenced based Includes an additional chapter on working in a multicultural society with a discussion on some of the challenges faced by health visitors Discusses and debates the practice of public health and working with communities Examines the role of the health visitor with safeguarding and child protection as well as working within a multi professional team Features case studies and learning activities Health Visiting Preparation for Practice is essential reading for student health visitors public health nurses and those on community placements as well as other health practitioners working with and in the community

Health Information in a Changing World W. Bernard Luckenbill, Barbara Froling Immroth, 2010-06-14 This holistic guide explains how school librarians and teachers can successfully integrate relevant health concepts and life skills throughout the curriculum for students K through 12 In the United States convenience food and soft drink based diets increasingly sedentary lifestyles and obesity have become common in youth culture The importance of health education merits integration throughout school curricula unfortunately research shows that many teachers do not feel prepared to teach health issues within their subject areas This book will encourage all librarians and teachers no matter their specific area of instruction to include health lessons in their teaching Health Information in a Changing World Practical Approaches for Teachers Schools and School Librarians provides a complete action plan for librarians and teachers who want to provide better health information to students and their caregivers It contains an extensive discussion of teaching health within curriculum areas such as literature history and biography art science and mathematics industrial technology and agriculture Tips on accessing and evaluating health information in print and electronic media are presented as well as practical suggestions for effective instructional methods including ideas on conducting demonstrations field trips speaker programs and online distance education New findings regarding teaching effectiveness assessment are also presented

Health Promotion Ruth Cross, Sally Foster, Ivy O'Neil, Simon Rowlands, Louise Warwick-Booth, James Woodall, 2020-12-07 Health promotion is a key mechanism in tackling the foremost health challenges faced by developing and developed nations Covering key concepts theory and practical aspects this new edition continues to focus on the themes central to health promotion practice worldwide Social determinants equality and equity policy and health working in partnerships sustainability evaluation and evidence based practice are detailed and the critical application of health promotion to practice is outlined throughout the book Beginning with the foundations of this

important area in this new edition the authors then place greater emphasis on the role of power within health and communities Drawing upon international settings and teaching experience in the global North and South it finishes with a summary of the future directions of professional health promotion practice Placing a strong emphasis on a global context this book provides an accessible and engaging resource for postgraduate students of health promotion public health nursing and related subjects health practitioners and NGOs The Health Studies Companion Sophie Smailes,Clare Street,2017-09-16 A comprehensive introduction that provides essential information and advice on study skills research and careers for students of Health Studies Ideal pre course reading it covers the core components of the course reflective activities and stacks of useful resources to makes readers explore further and reflect on their learning Pathological Lives Steve Hinchliffe,Nick Bingham,John Allen,Simon Carter,2016-12-21 Pandemics epidemics and food borne diseases are a major global challenge Focusing on the food and farming sector and mobilising social theory as well as empirical enquiry Pathological Lives investigates current approaches to biosecurity and ask how pathological lives can be successfully regulated without making life more dangerous as a result Uses empirical and social theoretical resources developed in the course of a 40 month research project entitled Biosecurity borderlands Focuses on the food and farming sector where the generation and subsequent transmission of disease has the ability to reach pandemic proportions Demonstrates the importance of a geographical and spatial analysis drawing together social material and biological approaches as well as national and international examples The book makes three main conceptual contributions reconceptualising disease as situated matters the spatial or topological analysis of situations and a reformulation of biopolitics Uniquely brings together conceptual development with empirically and politically informed work on infectious and zoonotic disease to produce a timely and important contribution to both social science and to policy debate **Developing Practice for Public Health and Health Promotion E-Book** Jennie Naidoo,Jane Wills,2010-06-01 This package provides you with the book plus the eBook giving you the printed book and also giving access to the complete book content electronically Evolve eBooks allows you to quickly search the entire book make notes add highlights and study more efficiently Buying other Evolve eBooks titles makes your learning experience even better all of the eBooks will work together on your electronic bookshelf so that you can search across your entire library of Nursing eBooks Developing Practice for Public Health and Health Promotion is the second title in the Public Health and Health Promotion Practice series expanding on the best selling introductory textbook Foundations for Health Promotion Developing Practice is an essential text for the many different practitioners professionals and specialists who contribute to public health and health promotion enabling them to develop their knowledge skills and confidence Fully updated to reflect the many changes in health promotion theory practice and policy New chapter on empowerment as a key health promotion strategy Case studies activities and discussion points encourage interaction and reflection and stimulate learning Unique user friendly approach makes learning easy Examines the forces that drive practice

Focuses on the core strategies of Tackling health inequalities User and public participation and involvement Working in partnerships Empowerment Identifies current public health priorities and how to address these in practice Fully updated to reflect the many changes in health promotion theory practice and policy New chapter on empowerment as a key health promotion strategy People-centred Public Health Jane South, Judy White, Mark Gamsu, 2013 This volume provides a comprehensive and accessible overview of policy practice and research in public health **Foundations for Health Promotion - E-Book** Jane Wills, Jennie Naidoo, 2016-02-19 The new edition of the highly successful Foundations for Health Promotion continues to offer a wealth of information in a unique user friendly format Containing over 300 artworks tables and pull out boxes this helpful text covers the theory strategies and methods settings and implementation of health promotion Applicable to a wide range of health and social care professionals and anyone engaged with education about health and wellbeing Comprehensive updating and expansion to reflect recent research findings and major organizational and policy changes Clear structure and signposting for ease of reading and study Wide choice of examples and illustrative case studies reflect the needs of a variety of professional groups in health services local and municipal services and education Interactive learning activities with indicative answers help readers consolidate their learning Comprehensively updated and expanded to reflect major organizational and policy changes Interactive learning activities with indicative answers at the end of each chapter Pull out boxes illustrate recent research findings and case studies of practice **Health Inequalities** Katherine E. Smith, Clare Bambra, Sarah E. Hill, 2015-11-26 Informed by a wealth of available research between 1997 and 2010 the UK Labour government introduced a raft of policies to reduce health inequalities Despite this by most measures the UK's health inequalities have continued to widen This failure has prompted calls for new approaches to health inequalities research and some consensus that public health researchers ought to be more actively involved in public health advocacy Yet there is currently no agreement as to what these new research agendas should be and despite multiple commentaries reflecting on recent UK efforts to reduce health inequalities there has so far been little attempt to map future directions for research or to examine what more egalitarian policies means in practical terms Health Inequalities Critical Perspectives addresses these concerns It takes stock of the UK's experiences of health inequalities research and policy to date reflecting on the lessons that have been learnt from these experiences both within the UK and internationally The book identifies emergent research and policy topics exploring the perspectives of actors working in a range of professional settings on these agendas Finally the book considers potential ways of improving the links between health inequalities research policy and practice including via advocacy With contributions from established international health inequalities experts and newer up and coming researchers in the field as well as individuals working on health inequalities in policy practice and civil society settings Health Inequalities Critical Perspectives is a must buy for researchers postgraduate students policymakers practitioners and research funders *Research Methods for Leisure and Tourism* A.J.

Veal, 2017-12-19 Now in its fifth edition *Research Methods for Leisure and Tourism* has become the ultimate reference text for both students enrolled in undergraduate and postgraduate degrees and practising managers. This book combines comprehensive coverage of a wide variety of qualitative and quantitative research methods with step by step guidance through research software including Excel, SPSS and NVivo. Key features: Coverage of both qualitative and quantitative research methods ensuring a balanced approach to data collection and analysis. Practical guidance on conducting research and writing reports showing the how as well as the what. Detailed coverage of the development of conceptual frameworks for research, research design, analytical methods and the composition of research reports providing everything required to conduct a research project. International case studies and extensive examples from the leisure and tourism literature. Questions, exercises and further reading for each chapter. Extensive web based support materials. New to this edition: The fifth edition has been fully updated throughout and includes additional material on Management and policy related research methods. EndNote bibliographic referencing software. Notes on additional methods including big data, discourse analysis, multiple correspondence analysis, netnography, web based research, people meters. For the analysis of quantitative data, SPSS is updated to version 23. For qualitative data analysis, the guide to NVivo software is updated to version 11. Promoting Health Jane Taylor, Lily O'Hara, Lyn Talbot, Glenda Verrinder, 2020-09-15 Updated framework for health promotion practice including distinction between comprehensive and selective primary health care approaches and the addition of the health promotion practice cycle. Introduction to the values and principles of critical health promotion and their application within a comprehensive primary health care context. Increased focus on indigenous perspectives with current Australian and New Zealand examples. Quizzes to check understanding of the content of each chapter.
