Association Beginning in the 1920s audiences around the globe were seduced not only by Hollywood films but also by lavish movie theaters that were owned and operated by the major American film companies These theaters aimed to provide a quintessentially American experience Outfitted with American technology and accoutrements they allowed local audiences to watch American films in an American owned cinema in a distinctly American way In a history that stretches from Buenos Aires and Tokyo to Johannesburg and Cairo Ross Melnick considers these movie houses as cultural embassies He examines how the exhibition of Hollywood films became a constant flow of political and consumerist messaging selling American ideas products and power especially during fractious eras Melnick demonstrates that while Hollywood s marketing of luxury and consumption often struck a chord with local audiences it was also frequently tone deaf to new social cultural racial and political movements He argues that the story of Hollywood s global cinemas is not a simple narrative of cultural and industrial indoctrination and colonization Instead it is one of negotiation booms and busts successes and failures adoptions and rejections and a precursor to later conflicts over the spread of American consumer culture A truly global account Hollywood s Embassies shows how the entanglement of worldwide movie theaters with American empire offers a new way of understanding film history and the history of U S soft power [Micro Perspectives for Decentralized Energy Supply](#) Martina Schäfer,2011

**African Culture and Global Politics** Toyin Falola,Danielle Sanchez,2014-01-10 This volume attempts to insert itself within the larger discussion of Africa in the twenty first century especially within the realm of world politics Despite the underwhelming amount of attention given to Africa s role in international politics in popular news sources it is evident that Africa has a consistent record of participating in world politics one that pre dates colonization and continues today In continuance of this legacy of active participation in global political exchanges Africans today can be heard in dialogues that span the world and their roles are impossible to replace by other entities It is evident that a vastly different Africa exists than ones that bolster images of starvation corruption and compliance The essays in this volume center on Africa and Africans participating in international political discourses but with an emphasis on various forms of expression and philosophies as these factors heavily influence Africa s role as a participant in global politics The reader will find a variety of essays that permeate surface discussions of politics and political activism by inserting African culture rhetoric philosophies into the larger discussion of international politics and Africa s role in worldwide political social and economic debates

**Newsmaking Cultures in Africa** Hayes Mawindi Mabweazara,2018-06-05 This book contributes to a broadened theorisation of journalism by exploring the intricacies of African journalism and its connections with the material realities that underpin the profession on the continent It pulls together theoretically driven studies that collectively deploy a wide range of evidence to shed some light on newsmaking cultures in Africa the everyday

routines defining epistemologies as well as ethical dilemmas The volume digs beneath the standardised and universalised veneer of professionalism to unpack routine practices and normative trends shaped by local factors including the structural conditions of deprivation entrenched political instability and interference pervasive neo patrimonial governance systems and the influences of technological developments These varied and complex circumstances are shown to profoundly shape the foundations of journalism in Africa resulting in routine practices that are both normatively distinct and equally in tune with imported Western journalistic cultures The book thus broadly points to the dialectical nature of news production and the inconsistent and contradictory relationships that characterise news production cultures in Africa

**Cultural Production and Change in Kenya** Kimani Njogu, Garnette Oluoch-Olunya, 2007 Art Culture and Society Vol 1 is the first in a series of books to be published by Twaweza Communications on the relationship between art and society with special reference to Kenya It is part of a cultural leadership initiative being undertaken by the organization through a reexamination of the arts as they are produced and studied This volume brings together important reflections on the arts and is a major step in encouraging dialogue on the relationship between creativity and the human condition in the region Significantly it creates a space for university based academics to engage in dialogue with artists and writers based outside institutions of higher learning The conversations will bridge the gap between the two domains for knowledge production and enrich creative enterprise in Kenya in theory and practice As the essays in this collection show the present global situation demands a way to conceptualise and theorise an ever growing cultural interconnectedness sometimes manifested in art and interconnectedness that draws from a myriad of cultures and experiences Through the bridges of contact and cultural exchange distant images are mediated and brought closer to us They are reinterpreted and modified In the final analysis culture is shown to be an important aspect of human creativity but separateness and boundedness is contested Instead culture is shown to be malleable and fluid The essays bring in a new freshness to our reading of the creative arts coming out of Kenya

perceived to be the backers of Mwai Kibaki a Kikuyu and his Kikuyu dominated PNU alliance The worst unrest was around the Northern Rift Valley town of Eldoret where Kalenjins mobilised against Kikuyu driving them away and burning their property But there was also serious violence in the Southern Rift with Kalenjin attacks on Kisii communities over land ownership issues and in Western Kenya particularly in the town of Kisumu where Luo supporters of the opposition Orange Democratic Movement ODM were shot by the Kenyan police In the Rift Valley towns of Naivasha Molo and Nakuru the Mungiki a Kikuyu outlawed militia attacked ODM supporters Families from the minority Ogiek hunter gatherer community close to Nakuru had their houses burnt down and their property destroyed by Kikuyu villagers By the time the powersharing deal was struck on 28 February 2008 bringing together the ODM and the PNU approximately 1 500 Kenyans had been killed over 400 000 displaced and an unknown number of women had been raped Six months on the Grand Coalition has survived despite initial scepticism over its prospects and peace has returned to the Kenyan countryside But it is a fragile peace and dependent on strong leadership with a will to reform When the Grand Coalition was formed its leaders vowed to tackle the deeply rooted problems that led to the violence in the first place They promised a new inclusive approach to governing Kenya s multi ethnic society instead of the winner takes all mentality of the past But a key test of the pledge is how the Coalition reaches out to the country s most marginalized and impoverished communities The experience of Kenya s smaller minority and indigenous peoples see page 3 shows that thus far this promise has yet to be fulfilled Members of the Ogiek hunter gatherer group caught up in the violence have yet to receive any government assistance while internally displaced peoples IDPs from larger communities have received shelter seeds and fertilizers as well as the promise of compensation to rebuild houses Moreover despite the important reforms set in motion by the Kofi Annan brokered deal there has been no commitment to involve minority and indigenous peoples in these processes and it remains unclear how these communities will realise their right to participate in them Secondly Kenya s new prime minister has pledged to tackle what he termed the scourge of ethnicity in Kenya His meaning however remains unclear and potentially poses difficulties for minorities If it entails a more hostile approach to minorities rights to express their separate culture and identity then it will undercut the very point of the inclusive process that the reforms are supposed to achieve However if the prime minister means to tackle the politicization of ethnicity which has disfigured Kenya s governance since independence then the commitment is a welcome one But here again there are doubts about the political will to follow through on this promise Reconciliation efforts in the countryside have been largely NGO and church led The government s main priority seems to have been to disperse the large IDP camps rather than heal ethnic divisions Moreover the ODM s calls for an amnesty for their supporters arrested during the election violence puts a question mark over the party s commitment to tackle the culture of impunity which surrounds ethnic violence in Kenya The first part of this paper examines in greater detail how the government has dealt with the issue of ethnicity and fall out from the violence six months ago The second part of the paper looks at the prospects for

reform through the lens of minority and indigenous rights
