Doobay-Persaud, Tracy L. Rabin, Tomlin Paul, Jessica Evert ,Benedicta Ayiedu Mensah, 2024-10-01 Global Health a field of study research and practice defined in 2009 with precursors in international health and development is currently reckoning with itself The field has well intended goals emphasizing collaboration and dialogue between population health public health clinical care and other disciplines to address socioeconomic determinants of health and employing interdisciplinary approaches to address health inequities wherever they exist Despite these lofty ideals there are concerns that the field itself has historically served to reinforce rather than deconstruct colonialism and power imbalances At this point in time the field has evolved toward a vision of a community of practice between institutions across the income spectrum HIC LMIC LIC working in bidirectional and multidirectional ways to develop staff staff space systems and strategies to eliminate health disparities However with deeply rooted colonial assumptions racism elitism and other forms of bias underlying institutions and individuals initiatives operating under the auspices of Global Health are all too often antithetical to the pursuit itself

Handbook of Research on Human Development in the Digital Age Bryan, Valerie C., Musgrove, Ann T., Powers, Jillian R., 2017-07-13 The rapid evolution of technology continuously changes the way people interact work and learn By examining these advances researchers can further optimize the various opportunities that technology provides The Handbook of Research on Human Development in the Digital Age is a pivotal reference source presenting the latest scholarly research on the impact of technology on the population through different theories and perspectives Featuring extensive coverage on a broad range of topics such as cyberbullying mobile technology and social skills development this publication is ideally designed for academicians researchers and practitioners seeking current research on new trends in technology that impact society **The SAGE Handbook of Action Research** Hilary Bradbury, 2015-06-19 The third edition of The SAGE Handbook of Action Research presents an updated version of the bestselling text including new chapters covering emerging areas in healthcare social work education and international development as well as an expanded skills section which includes new consultant relevant materials Building on the strength of the previous landmark editions Hilary Bradbury has carefully developed this edition to ensure it follows in their footsteps by mapping the current state of the discipline as well as looking to the future of the field and exploring the issues at the cutting edge of the action research paradigm today This volume is an essential resource for scholars and professionals engaged in social and political inquiry healthcare international development new media organizational research and education Qualitative research on impacts of the Zambia Home Grown School Feeding and Conservation Agriculture Scale Up Programmes Nesbitt-Ahmed, Z., Pozarny, P., 2021-05-12 This in depth qualitative study in Zambia is integral to a mixed method impact evaluation of the Home Grown School Feeding HGSF and the Conservation Agriculture Scale Up CASU programmes Zambia s HGSF launched in 2011 and institutionalized in 2012 by

the Government of Zambia in collaboration with the World Food Programme WFP provides nutritious cooked meals to almost one million schoolchildren and WFP's Purchase for Progress P4P programme procures the commodities that make up the school meals provided by HGSF. P4P aims to improve livelihoods and address food insecurity by expanding local market opportunities for smallholder farmers in rural areas. The CASU programme implemented between 2013 and late 2017 by FAO aimed to provide solutions to declining crop production among small and medium scale farmers, strengthen partnership and networking between the Zambian government and cooperating partners, non-governmental organizations, NGOs and the private sector, and reduce hunger, improve food security and income by increasing crop production, diversification and productivity. The aim of the qualitative study is to contextualise the findings of a quantitative impact evaluation conducted between October 2017 and January 2018 and deepen understanding of how and why specific findings and impacts transpired.

The Evaluative Study of Action Research Eileen Piggot-Irvine, Lesley Ferkins, Wendy Rowe, Shankar Sankaran, 2021-02-15. The Evaluative Study of Action Research presents all eight published papers as part of the six year global Evaluative Study of Action Research (ESAR) in one volume. The study sought to enhance the academic rigour of Action Research (AR) and provide greater evidence of its impact. This research contained in this book shows in a cohesive way how the ESAR exemplifies original research incorporating new methodologies to create new knowledge. An Evaluative AR framework and indicators were created for initial qualitative data collection with six initial case studies using interviews, survey, documentary analysis and Goal Attainment Scaling methods. The initial study was followed by a large scale mixed method survey with 174 projects from across the globe. Almost all projects exhibited positive elements linked to AR precursors: focus, clarification, stakeholder engagement, funding processes, phased, planned yet flexible activity, data collection and analysis, ongoing collaboration and leadership, and outcomes. Impacts: change, knowledge mobilisation and continuing action. The results of the ESAR elaborated in this volume offer important indications for how to create the sort of respectful engagement that is required for collective strength in solution based innovative change. This book will be a valuable resource for action researchers throughout the world, postgraduate research students, academics and libraries, evaluators and anyone in communities who wishes to know how to create sustainable change.

Groups Glyn Elwyn, Trisha Greenhalgh, Fraser Macfarlane, 2018-04-19. In this introductory text, the author presents the law relating to child care and the reforms introduced by the Children Act 1989, assessing its impact on child care practice and procedures. Focusing on a practical interpretation of the law by the use of hypothetical examples, practice notes and recommendations, the book illustrates its relevance to those working in the caring and health professions and incorporates details of various sets of Guidance and Regulations issued by the Department of Health. In addition, it provides an outline of

adoption law the principles of consent to treatment and the effect of surrogacy and assisted reproduction on the legal definition of parenthood **An American Association for State and Local History Guide to Making Public History**

Relational Mindfulness Roberto Aristegui, Javier Garcia Campayo, Patricio Barriga, 2021-03-25 This book proposes a new approach to mindfulness based interventions presenting them not as individual but as relational practices In the last decades mindfulness has exerted a growing influence on many fields of research and activity but always as an individual practice The authors in this volume believe that the strong development of mindfulness today implies considering a dialogue between this individualistic approach and the perspective of relational mindfulness based on social constructionism The volume is organized in two parts The first part focuses on the theoretical foundations of relational mindfulness The second part presents possibilities of applications of relational mindfulness in clinical and organizational settings to promote mental health and personal development *Relational Mindfulness Fundamentals and Applications* will be of interest to a wide range of professionals interested in applying mindfulness based interventions in mental health care and productive organizations such as clinical and health psychologists public health professionals and human resources analysts and consultants among others It is true that the metaphor of mindfulness has been enormously fruitful in its invitation to innovate By removing meditative practices from their ancient roots practitioners were free to create practices especially relevant to context At the same time there was also a recognizable loss in the profoundly rich heritage that was left behind For many of us the greatest loss resulted from the absorption of such practices into Western individualism What had once been an orientation to practice emphasizing our fundamental inter being had become a gateway to silent separation It is in this context that the present volume bursts into significance With special appreciation to the editors of this book we are treated to a multi dimensional exploration into the relational dimensions of mindfulness practices Bringing ideas experience and wisdom from across professions and across continents the contributors open an exciting path to the future Excerpt from the Foreword by Kenneth J Gergen
