Women in collaboration with Pachyderm Tales **Translation and Cross-Cultural Communication Studies in the Asia Pacific**, 2015-06-24 Translation and interpreting T I and cross cultural communication activities in the Asia Pacific are unique in that they involve vastly different languages and cultures Such differences pose challenges for T I practitioners and researchers as well as scholars of cross cultural studies In Translation and Cross Cultural Communication Studies in the Asia Pacific Leong Ko and Ping Chen provide a comprehensive and in depth account of various issues encountered in translation and interpreting activities and cross cultural communication in the Asia Pacific The book covers six areas including translation research from the historical perspective and different issues in translation studies research on literary translation studies on translation for special purposes research on interpreting translation and interpreting training and research on issues in cross cultural communication **Translating Nephesh in the Psalms into Chinese** Hui Er Yu, 2018-08-31 This interdisciplinary study tackles the controversy of translating nephesh by using an intergenerational translation team to deepen our understanding of this term and providing a more valuable translation in Chinese especially for use in specialist Children s Bibles Traditionally nephesh is often translated in the Bible as soul but despite the limitations of this popular rendering it has led Christians in Chinese contexts to falsely understand views regarding the nature of human beings as a trichotomy Dr Hui Er Yu s study offers different options for translating nephesh using the context of where the word appears in Scripture as well as in reference to linguistic and cultural meanings in Chinese contexts The findings in this book will help to remove anthropological misunderstandings among many Chinese Christians related to nephesh as a result of historic translation decisions Dr Yu takes a unique approach to translation by using an intergenerational Bible translation team ranging from seven to fifty one years of age which not only demonstrates the importance of intergenerational ministry but also presents a way to fulfill the growing need for well translated Children s Bibles in China for thousands of young believers This book provides important lessons for the many translation projects working towards Children s Bibles but also for how translation of biblical terms can be better reached through this intergenerational process Far From the Truth Michiel van Groesen, Johannes Müller, 2023-12-28 Information and knowledge were essential tools of early modern Europe s global ambitions This volume addresses a key concern that emerged as the competition for geopolitical influence increased how could information from afar be trusted when there was no obvious strategy for verification How did notions of doubt develop in relation to intercultural encounters Who were those in the position to use misinformation in their favour and how did this affect trust How in other words did distance affect credibility and which intellectual and epistemological strategies did early modern Europe devise to cope with this problem The movement of information and its transformations in the process of gathering ordering and disseminating makes it necessary to employ both a global and a local perspective in order to understand its significance The rise of print leading to various new forms of mediation played a crucial role everywhere inspiring theories of modernization in which media served as agents of new connections and eventually of globalization

Paradoxically during the entire period between 1500 and 1800 the demise of distance through various strategies of verification coincided with constructions of otherness that emphasized the cultural and geographical difference between Europe and the worlds it encountered Ten leading scholars of the early modern world address the relationship between distance information and credibility from a variety of perspectives This volume will be an essential companion to those interested in the history of knowledge and early modern encounters as well as specialists in the history of empire and print culture The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Rereading Schleiermacher: Translation, Cognition and Culture Teresa Seruya, José Miranda Justo, 2015-11-30 This book celebrates the bicentenary of Schleiermacher's famous Berlin conference On the Different Methods of Translating 1813 It is the product of an international Call for Papers that welcomed scholars from many international universities inviting them to discuss and illuminate the theoretical and practical reception of a text that is not only arguably canonical for the history and theory of translation but which has moreover never ceased to be present both in theoretical and applied Translation Studies and remains a mandatory part of translator training A further reason for initiating this project was the fact that the German philosopher and theologian Friedrich Schleiermacher though often cited in Translation Studies up to the present day was never studied in terms of his real impact on different domains of translation literature and culture

Identity and Status in the Translational Professions Rakefet Sela-Sheffy, Miriam Shlesinger, 2011-10-13 This volume contributes to the emerging research on the social formation of translators and interpreters as specific occupational groups Despite the rising academic interest in sociological perspectives in Translation Studies relatively little research has so far been devoted to translators social background status struggles and sense of self The articles assembled here zoom in on the groups of individuals who perform the complex translating and or interpreting tasks thereby creating their own space of cultural production Cutting across varied translatorial and geographical arenas they reflect a view of the interrelatedness between the macro level question of professional status and micro level aspects of practitioners identity Addressing central theoretical issues relating to translators habitus and role perception as well as methodological challenges of using qualitative and quantitative measures this endeavor also contributes to the critical discourse on translators agency and ethics and to questions of reformulating their social role The contributions to this volume were originally published in Translation and Interpreting Studies 4 2 2009 and 5 1 2010
