Global Marketing Strategy Bodo B. Schlegelmilch, 2022-02-16 This book has been written for experienced managers and students in postgraduate programs such as MBA or specialized master's programs. In a systematic yet concise manner it addresses all major issues companies face when conducting business across national and cultural boundaries including assessing and selecting the most promising overseas markets, evaluating market entry alternatives, and examining the forces that drive adaptation versus standardization of the marketing mix. It looks at the various global marketing challenges from a strategic perspective and also addresses topics not usually found in international marketing texts such as aligning marketing strategies with global organizational structures and managing the relationship between national subsidiaries, regional headquarters, and global headquarters, as well as corporate social responsibility challenges and pertinent future trends that are likely to affect global business. A guide to suitable video resources giving additional background to this book can be downloaded by all readers by contacting the author. Instructors can also obtain additional support material for teaching. Please email Bodo Schlegelmilch at WU Vienna using your institutional email and stating your university affiliation. More than 400 PowerPoint slides covering the material in each chapter. Open Ended Questions. A comprehensive multiple choice test bank with solutions.

Diversity and Philanthropy Lilya Wagner, 2016-03-14 A one size fits all strategy is not effective when it comes to philanthropy and fundraising in today's diversified environment. This book enables nonprofit leaders, board members, staff, and volunteers of nonprofit organizations to better reach diverse populations and incorporate perspectives that increase success by surveying the cultural context for philanthropic action. **Diversity and Philanthropy: Expanding the Circle of Giving** is a concise, accessible, and research-backed resource that explains the traditions of philanthropy, an invaluable tool given the proliferation of global nongovernmental organizations that affect every aspect of society in every country. Author Lilya Wagner has worked across the globe as fundraising and nonprofit organizations proliferated in the last 25 years. This book is an outgrowth of her extensive research as well as an accumulation of her professional interactions in the field and real world knowledge. The book begins with an overview of culture and its influence on generosity and then examines the global increase of attention on diversity in giving. Chapters address specific cultural and ethnic groups, the traditions of their countries of origin, what influences their giving in North America, and characteristics that are inherent in culture such as religion and attitudes about family. The book concludes with an insightful discussion of how to be a culturally proficient professional. An extensive listing of resources including research on various aspects and angles of the topic and surveys on giving both in North America and globally makes it easy for those who want to pursue related topics in more detail.
