Volume 1-3** Michael Viktor Schwarz,2023-04-17 Vol 1 Life Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto s life there are on the one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto s lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure s double life relating it to the form of existence of the pre modern artist Vol 2 Works The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy s urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again Vol 3 Survival Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto s impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies

Morrill,2023-09-15 The Casa del De n in Puebla Mexico is one of few surviving sixteenth century residences in the Americas Built in 1580 by Tom s de la Plaza the Dean of the Cathedral the house was decorated with at least three magnificent murals two of which survive Their rediscovery in the 1950s and restoration in 2010 revealed works of art that rival European masterpieces of the early Renaissance while incorporating indigenous elements that identify them with

Amerindian visual traditions Extensively illustrated with new color photographs of the murals The Casa del De n presents a thorough iconographic analysis of the paintings and an enlightening discussion of the relationship between Tom s de la Plaza and the indigenous artists whom he commissioned Penny Morrill skillfully traces how native painters trained by the Franciscans used images from Classical mythology found in Flemish and Italian prints and illustrated books from France as well as animal images and glyphic traditions with pre Columbian origins to create murals that are reflective of Don Tom s s erudition and his role in evangelizing among the Amerindians She demonstrates how the importance given to rhetoric by both the Spaniards and the Nahuas became a bridge of communication between these two distinct and highly evolved cultures This pioneering study of the Casa del De n mural cycle adds an important new chapter to the study of colonial Latin American art as it increases our understanding of the process by which imagery in the New World took on Christian meaning
