Walters, 2010-11-30 Take a journey of faith with Paul Atkinson a self sworn loner former covert operative for the Pentagon and Army Ranger Wanting to live out a life of solitude Paul moves to beautiful northern Georgia near the town of Dahlonega with a desire to leave his past behind and to live quietly in the rural mountain area he had chosen while in the army However with the coaxing of a Christian family a caring community and a beautiful woman Paul begins to find faith and love But will he hold onto it all Tragedy strikes when Paul learns of his brothers suicide in a jail cell in Dallas Texas His newfound faith in God is crushed his desire for love and family fades and Paul turns his back on all In the midst of the turmoil Paul is lured back into his covert unit and into a political firestorm that could cost him his life the life of a controversial foreign leader and the life of the American President Will Paul survive and find hope again Car Guys vs. Bean Counters Bob Lutz, 2013-05-28 One of the most acute books about management and how companies work in practice that I have read in a long time If anyone wants to know exactly how the U S auto industry got into trouble here is your guide John Gapper FINANCIAL TIMES When Bob Lutz got into the auto business in the early 1960s CEOs knew that if you captured the public's imagination with innovative car design and top quality craftsmanship the money would follow The car guys held sway and GM dominated with bold creative leadership and iconic brands like Cadillac Buick Pontiac Oldsmobile GMC and Chevrolet But then GM's leadership began to put its faith in numbers and spreadsheets Determined to eliminate the waste and personality worship of the bygone creative leaders management got too smart for its own good With the bean counters firmly in charge carmakers and much of American industry lost their single minded focus on product excellence and their competitive advantage Decline soon followed In 2001

General Motors hired Lutz out of retirement with a mandate to save the company by making great cars again. As vice chairman, he launched a war against the penny-pinching number crunchers who ran the company by the bottom line and reinstated a focus on creativity, design, and cars and trucks that would satisfy GM's customers. Lutz's commonsense lessons combined with a generous helping of fascinating anecdotes will inspire readers in any industry.
