institutional economics to reflect progress made in trust research and is a relevant addition for practitioners to better understand the role of trust in the governance of contemporary cooperation structures It will be of interest to researchers academics and students in the fields of economics and business management institutional economics and business ethics Note that this work is the first of its kind that explicitly reflects on the societal realities how these drive the assumption setting process and how these assumptions influence the theory outcome **The Fear of Erring** Ingo Rohrer,2024-10-29
