Ronald F Levant Ed D ABPP Dean Center for Psychological Studies Nova Southeastern University Ft Lauderdale Florida The Handbook of Counseling Boys and Adolescent Males fills a gap in the counseling field by providing counselors in schools and community agencies with information that will guide them in expanding their services to the males with whom they work. The developmental background is very helpful to counselors in expanding their understanding of the nature of problems boys experience in growing up. The section on cultural considerations illustrates sensitivity to the varying racial/ethnic intervention and treatment programs that may be used in schools and community agencies. This book will be an extremely helpful resource for counselors in their work with boys and adolescent males. It is highly recommended for all mental health practitioners.

Pamela Paisley Ed D The University of Georgia President Association of Counselor Education and Supervision As we try to understand the violence that has rocked our schools, one common denominator stands out. The perpetrators are all young males. School counselors confirm that there are a lot of angry young men out there. Why are they so angry? What can we do to better understand them? How can we help? This book promises to be a must read for all school counselors.
