Handwriting Analysis 101 David La Morito, 2017-01-26 Handwriting Analysis 101 Identifying Personality Sex Lies through Handwriting Are You Ready To Learn How To Read Into The Detail Of Handwriting If So You've Come To The Right Place In the 1930's handwriting analysis finally gained visibility in the United States A penmanship instructor noticed that despite the consistency of his method of instruction and teaching his students in groups their handwriting always had a certain individuality their strokes bore their mark as he put it He made detailed observations made use of existing knowledge and eventually made significant contributions to the science in addition to increasing its popularity in the US Here's A Preview Of What You'll Learn Introduction To Handwriting Analysis Understanding Personality Via Slope Uprightness Angularity Legibility Of Lettering More Sex And Compatibility Via Handwriting Analysis Identifying Lies Must Read And Much Much More Be Sure To Download Your Bonus Content At The Back Of This Book *Handwriting Analysis 101* Bart A. Baggett, 2010 This introduction is a guide to psychology and human behavior through handwriting analysis Includes a brief history of handwriting analysis basic psychological principles revealed in handwriting and the emotional intensity of pressure and slant **Handwriting Analysis 101** Dale Roberts, Pat Peterson, 200? **Graphology** Julian Moore, Is it possible to know all about someone just by looking at their handwriting Imagine you could ask anyone to write down two simple words yet you could start telling them what they're like from their handwriting almost immediately even complete strangers You must admit that would be cool How could you know so much with so little information Well with the graphology system outlined in this new graphology book designed to be learned in few days you can be giving interesting yet fun handwriting readings in no time at all Here are some points to consider Can be learned over a weekend Requires only two words to be written down Can be done for two or more people at the same time A great ice breaker or conversation starter Once you've learned it it's almost impossible to forget Oh and did we mention the FREE AUDIOBOOK We almost forgot not only do you get the book packed with examples exercises and top tips to make learning graphology as painless as possible you also get the 13 part audiobook thrown in as well FLASH CARDS With the book and audiobook you also get a set of 10 flash cards Print them off onto index cards and stick them in your back pocket so you can have an instant refresher moment while you're still learning the system No need for last minute nerves a quick look at your flash cards and you can top up your new found knowledge in a jiffy Powerful stuff Seriously knowing this information is powerful everyone is interested in themselves and by using the fun techniques in this unique book you'll find that sometimes you simply haven't got the time to check out everybody's handwriting REVIEWS I really enjoyed reading your new book and would heartily recommend it It is a great way to learn the art without spending hours ploughing through the many books out there on the subject Richard Osterlind Julian is a wonderful teacher I've tried learning enough about graphology before to use as an adjunct to my mentalism performances but it never stuck And I quickly became bored With Julian's system once the info is in your head it isn't easily

leaving And I found the whole process fun Julian has set this up in a way that you get constant reinforcement for your efforts and just want to keep going Bill Cushman I have finished Julian s book on Graphology and highly recommend it Julian has condensed a large amount of information on graphology into an easily memorized system and provided a presentation that is short sweet and can be done on the back of a business card I like to explain how I am getting my information as I am doing the reading and Julian s system is perfectly suited for this In fact it is so simple to explain that your subject will likely go away believing they have learned something valuable even in the unlikely event that most of your reading doesn t hit the mark so you really cannot lose Anyone that is interested in Graphology should definitely pick up this book John Lumber As a long time graphologist I ve perused Julian s manuscript and can attest that it is exactly as described He s taken some of the real meat of the subject and found a way to explain it clearly and simply AND to do it in a wicked clever mnemonic sort of structure that makes it quite easy to remember And therefore easy to explain to others He s done a lot of hard mental work so that you won t have to Well worth the price tag for those who wish to use it Brane
