Executive Function and Education Mariëtte Huizinga,Dieter Baeyens,Jacob A. Burack,2018-09-21 Executive function is an umbrella term for various cognitive processes that are central to goal directed behavior thoughts and emotions These processes are especially important in novel or demanding situations which require a rapid and flexible adjustment of behavior to the changing demands of the environment The development of executive function relies on the maturation of associated brain regions as well as on stimulation in the child s social contexts especially the home and school Over the past decade the term executive function has become a buzzword in the field of education as both researchers and educators underscore the importance of skills like goal setting planning and organizing in academic success Accordingly in initiating this Research Topic and eBook our goal was to provide a forum for state of the art theoretical and empirical work on this that both facilitates communication among researchers from diverse fields and provides a theoretically sound source of information for educators The contributors to this volume who hail from several different countries in Europe and North America have certainly accomplished this goal in their nuanced and cutting edge depictions of the complex links among various executive function components and educational success **Writing and Reading Connections** Zoi A.

Philippakos,Steve Graham,2022-10-13 Writing skills are essential for success in the 21st century school and workplace but most classrooms devote far more time to reading instruction with writing often addressed in isolation or excluded In this insightful professional development resource and text leading researchers discuss why and how to integrate writing and reading instruction in grades K 12 and beyond Contributors explore how to harness writing reading connections to support learning in such areas as phonics and spelling vocabulary understanding genre and text structure and self regulated strategy development as well as across content areas and disciplines Special considerations in teaching emergent bilingual students and struggling literacy learners are described User friendly features include guiding questions classroom examples and action questions that help teachers translate the research and concepts into practice An NCTQ Exemplary Text for Reading Instruction *Introduction to Early Childhood Education* Eva L. Essa,Melissa M. Burnham,2019-01-09 Introduction to Early Childhood Education provides current and future educators with a highly readable comprehensive overview of the field The underlying philosophy of the book is that early childhood educators most important task is to provide a program that is

sensitive to and supports the development of young children Author Eva L Essa and new co author Melissa Burnham provide valuable insight by strategically dividing the book into six sections that answer the What Who Why Where and How of early childhood education Utilizing both NAEYC National Association for the Education of Young Children and DAP Developmentally Appropriate Practice standards this supportive text provides readers with the skills theories and best practices needed to succeed and thrive as early childhood educators Changing Matter, on Level Reader Grade 5 Hsp,2006-12

Creativity in the Classroom Alane J. Starko,2010 The fourth edition of this well known text continues the mission of its predecessors e to help teachers link creativity research and theory to the everyday activities of classroom teaching Part I chs 1 5 includes information on models and theories of creativity characteristics of creative people and talent development Part II chapters 6 10 includes strategies explicitly designed to teach creative thinking to weave creative thinking into content area instruction and to organize basic classroom activities grouping lesson planning assessment motivation and classroom organization in ways that support students e tm creativity Changes in this Edition Improved Organization This edition has been reorganized from 8 to 10 chapters allowing the presentation of theoretical material in clearer more manageable chunks New Material e In addition to general updating there are more examples involving middle and secondary school teaching more examples linking creativity to technology new information on the misdiagnosis of creative students as ADHD and more material on cross cultural concepts of creativity collaborative creativity and linking creativity to state standards Pedagogy Design e Chapter opening vignettes within chapter reflection questions and activities sample lesson ideas from real teachers and end of chapter journaling activities help readers adapt content to their own teaching situations Also a larger trim makes the layout more open and appealing and a single end of book reference section makes referencing easier Targeted specifically to educators but useful to others this book is suitable for any course that deals wholly or partly with creativity in teaching teaching the gifted and talented or teaching thinking and problem solving Such courses are variously found in departments of special education early childhood education curriculum and instruction or educational psychology
