Making Religion, Making the State Yoshiko Ashiwa, David L. Churches Bruce P. Baugus, 2014-05-26 This is a critical moment in the life of China's reforming churches and the Presbyterian and Reformed mission to China This book provides both a historical look at Presbyterianism in China and an assessment of the current state of affairs orienting readers to church development needs and the basic outlines of Reformed Christianity in China today While laying out the challenges and opportunities facing the church the authors argue that assisting this reformation in China should be a central objective of the Presbyterian and Reformed mission to China in this generation Table of Contents Introduction China Church Development and Presbyterianism Bruce P Baugus Part I The History of Presbyterianism in China 1 A Brief History of the Western Presbyterian and Reformed Mission to China Michael M 2 Watson Hayes and the North China Theological Seminary A Donald MacLeod 3 A Brief History of the Korean Presbyterian Mission to China Bruce P Baugus Sung Il Steve Park Part II Presbyterianism in China Today 4 In Their Own Words Perceived Challenges of Christians in China Brent Fulton 5 Why Chinese Churches Need Biblical Presbyterianism Luke P Y Lu 6 A Few Significant Ones A Conversation with Two of China's Leading Reformers Bruce P Baugus Part III Challenges Opportunities for Presbyterianism in China 7 The Social Conditions of Ministry in China Today G Wright Doyle 8 China a Tale of Two Churches Brent Fulton 9 Two Kingdoms in China Reformed Ecclesiology and Social Ethics David VanDrunen 10 From Dissension to Joy Resources from Acts 15 1 35 for Global Presbyterianism Guy Waters Part IV Appropriating a Tradition 11 The Emergence of Legal Christian Publishing in China An Opportunity for Reformed Christians Phil Remmers 12 A Report on the State of Reformed Theological Education in China Bruce P Baugus 13 The Indigenization Contextualization of the Reformed Faith in China Paul Wang Conclusion The Future of Presbyterianism in China Bruce P Baugus Appendices A Robert Morrison's Catechism Introduced and Translated by Michael M B Shandong Student Protest and Appeal Introduced by Bruce P Baugus and Translated by Born *The Politics of Protestant Churches and the Party-State in China* Carsten

Vala, 2017-09-06 Among China's restive religious and social groups Protestants have arguably created the most sustained structural challenges to the Chinese Communist Party's ordering of society By drawing on grassroots fieldwork conducted across the country this book therefore charts the ambition of the government to restrain Protestant population growth and direct it towards regime purposes In particular interviews with key church leaders who founded illegal Protestant congregations with hundreds of participants reveal how officials and illegal congregational leaders have developed ties of

trust and information that have permitted church growth even as they preserve a public image of Party domination. Thus by tracing the rise of large illegal Protestant congregations apart from Party state structures this book highlights the importance of the public behaviour of religious actors and regime officials in understanding the dynamics of negotiation, domination and resistance in 21st century China. Ultimately *The Politics of Protestant Churches and the Party State in China* paradoxically demonstrates that societal actors can alter the boundaries set by the Chinese Communist Party and the ways in which the Party is both more adaptive and resilient in its relations with society than first imagined. Offering the first book length analysis of how ambitious Protestants have founded large unregistered churches despite regime pressure, this book will be useful for students and scholars of Chinese Politics, Chinese Religion and Sociology. *Christianity and the State in Asia* Julius Bautista, Francis Khak Gee Lim, 2009-09-11. This book examines how Christians in Asia express their religion under the spectre of the nation state and processes of globalization. Considering Christianity's growing prominence and the various ways Asian nation states respond to this growth, this book brings into sharper analytical focus the ways in which the faith is articulated at the local, regional and global level.

Resistance Under Communist China Ray Wang, 2019-04-24. This book examines religious activism: Christianity, Buddhism and Taoism in China, a powerful atheist state that provides one of the hardest challenges to existing methods of transnational activism. The author focuses on mechanisms used by three kinds of actors: protesters, advocates and opportunists, and uses regional, inter-faith and international comparisons to understand why some foreign advocates can enter China and engage in illegal aid and missions to empower local activists, while the same groups cannot conduct the same activities in another geographically, economically and politically similar location. The stories in this book demonstrate a more inclusive and bottom up approach of transnational activism; they challenge the conventional spiral theory paradigm of human rights literature and the narrow views about GONGOS in civil society literature. This new knowledge helps to sustain a more optimistic view and offers an alternative way of promoting human rights in China and countries with similar authoritarian environments.

US-China Relations in the Twenty-First Century Michael Tai, 2015-04-24. The relationship between the United States and China will be of critical importance to the world throughout the twenty first century. In the West, China's rise is often portrayed as a threat and China seen in negative terms. This book explores the dynamics of this crucial relationship. It looks in particular at what causes an international relationship to be perceived negatively and considers what can be done to reverse this, arguing that trust is a key factor. It goes on to discuss US and Chinese rhetoric and behaviour in three key areas: climate change, finance and international security. The book contends that, contrary to much US rhetoric, China's actions in these areas is often much more flexible and accommodating than the US position, and that the Chinese are much more knowledgeable about and understanding and appreciative of the United States than vice versa.

Marginalization in China Joseph Tse-Hei Lee, Lida V. Nedilsky, 2009-06-22. Bringing together historians, sociologists and political scientists, this volume documents persistent prejudices against consistently marginal

groups in China and the moral claims they have mustered in response Handbook of Christianity in China Nicolas Standaert, R. G. Tiedemann, 2009-12-01 The second volume on Christianity in China covers the period from 1800 to the present day dealing with the complexities of both Catholic and Protestant aspects **Handbook on Religion in China** Stephan Feuchtwang, 2020-02-28 Informative and eye opening the Handbook on Religion in China provides a uniquely broad insight into the contemporary Chinese variations of Buddhism Islam and Christianity In turn China's own religions and transmissions of rites and systems of divination have spread beyond China a progression that is explored in detail across 19 chapters written by leading experts in the field *Religious Rights* Lorenzo Zucca, 2017-05-15 The central focus of this collection of essays is the role and place of freedom of religion in the protection and promotion of world order The volume offers competing models of world order from a global perspective and highlights the lack of consensus and considerable variety of practice and belief around the globe as to the definition of religious freedom and where and whether freedom of religion is regarded as the first freedom in the world The leading theories of freedom of religion are discussed and provide an understanding of freedom of religion beyond the nation state The liberal view at the global level is also examined and observations are included regarding the need to rethink secularism in the light of present circumstances and within the global context **The Party and the People** Bruce J. Dickson, 2021-05-25 How the Chinese Communist Party maintains its power by both repressing and responding to its people Since 1949 the Chinese Communist Party CCP has maintained unrivaled control over the country persisting even in the face of economic calamity widespread social upheaval and violence against its own people Yet the party does not sustain dominance through repressive tactics alone it pairs this with surprising responsiveness to the public The Party and the People explores how this paradox has helped the CCP endure for decades and how this balance has shifted increasingly toward repression under the rule of President Xi Jinping Delving into the tenuous binary of repression and responsivity Bruce Dickson illuminates numerous questions surrounding the CCP's rule How does it choose leaders and create policies When does it allow protests Will China become democratic Dickson shows that the party's dual approach lies at the core of its practices repression when dealing with existential political threats or challenges to its authority and responsiveness when confronting localized economic or social unrest The state answers favorably to the demands of protesters on certain issues such as local environmental hazards and healthcare but deals harshly with others such as protests in Tibet Xinjiang or Hong Kong With the CCP's greater reliance on suppression since Xi Jinping's rise to power in 2012 Dickson considers the ways that this tipping of the scales will influence China's future Bringing together a vast body of sources The Party and the People sheds new light on how the relationship between the Chinese state and its citizens shapes governance **Christian Missionaries, Ethnicity, and State Control in Globalized Yunnan** Gideon Elazar, 2023-10-31 Following the Communist Revolution of 1949 missionaries were kicked out of China and proselytizing was outlawed However since the beginning of the reform era China has witnessed a massive return of missionary workers Today

there are more Christians in church on a given Sunday in China than anywhere else on the globe This book investigates the interaction of Western missionaries ethnic minorities and Han Chinese converts with the Chinese state in an increasingly globalized China Based on extensive ethnographic fieldwork conducted in Yunnan it tries to make sense of the disparity between official state rhetoric and everyday reality Examining morality in the context of the free market system spatial practices linguistic activity and Christian welfare organizations Gideon Elazar reveals the ways in which the previously conflicting Communist Party and Christian civilizing projects have reached a measure of convergence enabling local authorities to treat missionaries with a degree of tolerance Elazar shows how this unofficial arrangement relates to the social realities and challenges of the reform era including ethnic culture and identity Yunnan s many social problems and the integration of ethnic minorities into the state system By exploring the continuously shifting social and religious borders negotiated by converts missionaries and state authorities in Southwest China this book sheds light on the larger issue of contemporary religion in China s global era It will be of interest to researchers of religion Christianity and minority groups in the People s Republic of China

Religious Identities and the Global South Felix Wilfred, 2021-01-04 This book offers a comprehensive and interdisciplinary account of religious identities in the Global South Drawing on literature in various fields Felix Wilfred analyzes how religious identities intersect with the processes of globalization modernity and postmodernity He illustrates how the study of religion in the Global North often revolves around questions of secularism and fundamentalism whereas a neo Orientalist quality often attends study of religion in the Global South These approaches and theorizing fail to incorporate the experiences of lived religion in the South especially in Asia Historically the religions in the South have played a highly significant role in resistance to the domination by the colonial forces an important reason for the continued attachment of the peoples of the South to their religious universe This book puts the two regions and their scholarly norms in conversation with one another exploring the social political cultural and economic implications

Christianity in Contemporary China Francis Khek Gee Lim, 2013-05-07 Christianity is one of the fastest growing religions in China Despite its long history in China and its significant indigenization or intertwinement with Chinese society and culture Christianity continues to generate suspicion among political elites and intense debates among broader communities within China This unique book applies socio cultural methods in the study of contemporary Christianity Through a wide range of empirical analyses of the complex and highly diverse experience of Christianity in contemporary China it examines the fraught processes by which various forms and practices of Christianity interact with the Chinese social political and cultural spheres Contributions by top scholars in the field are structured in the following sections Enchantment Nation and History Civil Society and Negotiating Boundaries This book offers a major contribution to the field and provides a timely wide ranging assessment of Christianity in Contemporary China

Darkest before the Dawn Richard R. Cook, 2021-11-02 The Christian church was always destined to find its way to China Long before the birth of the church China existed coalescing around

profound philosophical concepts and powerful cultural symbols It developed into a dynamic and enduring civilization In time Christian missionaries arrived on its shores driven to bring the gospel to this people This book starts with the story of that journey the arrival of the missionaries who planted the seeds of the gospel in Chinese soil As the seeds sprouted and grew a new story of a unique and distinct Chinese church began The epic narrative opens from uncertain beginnings in darkness passes through intense hardship and years of struggle and culminates with the triumphal emergence of the Chinese church from the shadows into the light of the global stage

At the Frontier of God's Empire Ji Li, 2023 To a lively cast of international players that shaped Manchuria during the early twentieth century At the Frontier of God's Empire adds the remarkable story of Alfred Marie Caubrière 1876-1948 A French Catholic missionary Caubrière arrived in Manchuria on the eve of the Boxer Uprising in 1899 and was murdered on the eve of the birth of the People's Republic of China in 1948 Living with ordinary Chinese people for half a century Caubrière witnessed the collapse of the Qing empire the warlord's chaos that followed the rise and fall of Japanese Manchukuo and the emergence of communist China Caubrière's incredible personal archive on which Ji Li draws extensively opens a unique window into everyday interaction between Manchuria's grassroots society and international players His gripping accounts personalize the Catholic Church's expansion in East Asia and the interplay of missions and empire in local society Through Caubrière's experience At the Frontier of God's Empire examines Chinese people at social and cultural margins during this period A wealth of primary sources family letters and visual depictions of village scenes illuminate vital issues in modern Chinese history such as the transformation of local society mass migration and religion tensions between church and state and the importance of cross cultural exchanges in everyday life in Chinese Catholic communities This intense transformation of Manchurian society embodies the clash of both domestic and international tensions in the making of modern China

Religious Diversity and Public Religion in China Zhibin Xie, 2017-03-02 This book addresses the issue of public religion and its implications in Chinese society Zhibin Xie explores various normative considerations concerning the appropriate role of religion in public political life in a democratic culture Besides drawing on the theoretical discourse on religion in the public sphere from Western academics it holds that the issue of religion in Chinese politics should be addressed by paying attention to characteristics of religious diversity and its political context in China This leads to a position of liberal constrained public religion in China which encourages religious contribution to the public sphere as a substantial component of religious liberty in China on the one hand and proposes some constraints both upon government and religions for regulating religious political discourse on the other

Political Theology in Chinese Society Joshua Mauldin, 2024-06-03 This book provides an itinerary for studying political theology in Chinese society including mainland China Hong Kong and Taiwan It explores the changing role of religion in Chinese history from the rise of Buddhism alongside Confucianism and Daoism through the arrival of Christianity and Islam to the suppression of religion under communism Since the reform and opening period beginning in 1978 China has experienced a resurgence of

religiosity with powerful societal implications Governing authorities have sought to regulate religious practice in line with their governing system Political theology in Chinese society is very much in flux and the chapters in this volume provide an array of windows through which to view the evolving reality They include historical approaches and descriptive analyses with an interdisciplinary and international range of perspectives by contributors based in and outside China The book will be of particular interest to scholars of theology religious studies and contemporary China studies *International Engagement in China's Human Rights* Titus Chen,Dingding Chen,2015-07-03 Since the Tiananmen Square incident in 1989 there has been increasing international pressure on China to improve its approach to human rights whilst at the same time the Chinese government has itself realised that it needs to improve its approach and has indeed done much to implement improvements This book explores systematically the international engagement in human rights in China and assesses the impact of such foreign involvement It looks at particular areas including criminal justice labour and religious freedom considers the processes by which international pressure is brought to bear and the processes by which improvements are implemented in China and concludes that whilst China s human rights record has improved more than many people realise further improvements are still needed
