Prominent atheists claim the Bible is a racist text Yet Dr Martin Luther King Jr read it daily Then again so did many ardent segregationists Some atheists claim religion serves to oppress the masses Yet the classic text of the French Revolution What is the Third Estate was written by a priest On the other hand the revolutionaries ended up banning religion What do we make of religion's confusing role in history And what of religion's relationship to science Some scientists claim that we have no free will Others argue that advances in neurobiology and physics disprove determinism As for whispering to the universe an absurd habit say the skeptics Yet prayer is a transformative practice for millions This book explores the most common atheist critiques of the Bible and religion incorporating Jewish Christian and Muslim voices The result is a fresh modern re evaluation of religion and of atheism Scott A Shay is a Co Founder and Chairman of Signature Bank and a longstanding Jewish community activist Shay started a Hebrew school an adult educational program and chaired several Jewish educational programs He is the author of *Getting our Groove Back* How to Energize American Jewry and has been thinking about religion reason and modernity since wondering why his parents sent him to Hebrew school **Geopolitics,**

Development, and National Security Sebastian Vaduva, Andrew R. Thomas, 2014-12-05 This volume focuses on the spotlight on Romania and Moldova two distinct nations that share a common language history and culture Romania is a NATO member since 2004 and a fully integrated nation into the European Union since 2007 while The Republic of Moldova a former Soviet republic is attempting to join both international organizations for security and development reasons Ever since the Iron Curtain fell on Europe at the end of World War II the term Eastern Europe has been used without much regard for the diversity of the region Given the geographical proximity perhaps this is an understandable error However moving forward into the twenty first century and considering the highly sensitive geopolitical security and development issues

playing out in the region we believe each nation should be treated with the unique distinction it deserves Building a mosaic of the most current research practical application and policy the authors who represent unique insider perspectives cover a range of emerging and timely topics from Black Sea security to cultural analyses organizational development and risk assessment shedding light on social political and economic challenges of rapid transition in the region while considering the implications for research practice and policy in other front line regions around the world

Ancient Mediterranean Religions John C. Stephens, 2016-06-22 This book offers a clear and concise historical overview of the major religious movements of the ancient Mediterranean world existing from the time of the second millennium BCE up until the fourth century CE including both the Judeo Christian and pagan religious traditions Recognizing the significant role of religious institutions in human history and acknowledging the diversity of religious ideas and practices in the ancient Mediterranean world religion is defined as a collection of myths beliefs rituals ethical practices social institutions and experiences related to the realm of the sacred cosmos Without focusing too much attention on technicalities and complex vocabulary the book provides an introductory road map for exploring the vast array of religious data permeating the ancient Mediterranean world Through an examination of literary and archeological evidence the book summarizes the fundamental religious beliefs and practices of the ancient Near Eastern world including the religious traditions of ancient Mesopotamia Egypt and Israel Turning westward the fascinating world of ancient Greek and Roman religion is considered next The discussion begins with a description of Minoan Mycenaean religion followed by a consideration of classical Roman and Greek religion Next the numerous religious movements that blossomed during Hellenistic Roman times are discussed In addition the fundamental theological contributions of various Greco Roman philosophical schools of thought including Orphism Stoicism Pythagoreanism Platonism and Neo Platonism are described Greco Roman philosophy functioned as a quasi religious outlook for many and played a decisive role in the evolution of religion in the classical and Hellenistic period The theological speculations of the philosophers regarding the nature of God and the soul made a huge impact in religious circles during the classical and Hellenistic era Moving forward in history from archaic and classical times to the later Hellenistic Roman period the old religious order of the past falls by the wayside and a new updated religious paradigm begins to develop throughout the Mediterranean world with a greater emphasis being placed upon the religious individual and the expression of personal religious feelings There are several important social and historical reasons for this shift in perspective and these factors are explained in the chapter focusing upon personal religion in Hellenistic times Since the entire religious topography of the ancient Mediterranean world is rarely outlined in a single volume this book will be a welcome addition to anyone's library

Mesopotamia and the Legends of Gilgamesh Faruq Zamani, Mankind lived in Paradise for a long time God said to unnamed colleagues Is it possible that he may also take from the Tree of Life and live forever Having eaten the Fruit of Knowledge but forbidden from reaching for the Fruit of the Tree of Life Following Adam's eating of the Fruit of Knowledge
