God's World and Our Place in It Fulton John Sheen, 2003 Bishop Fulton Sheen explains it all Bishop Sheen shows that Christianity makes good sense even to nonbelievers Indeed Christianity alone can explain goodness and evil in the world it alone makes sense of our impulses to love and sacrifice and our failures to do so *America in God's World* Kenneth L. Vaux, 2009-02-18 America in God's World argues that human injustice in social policy areas such as security economy and ecology can be traced to defective theology ethics abroad in the land Renewing biblical theology and ethics and finding new ways to appropriate this wisdom into public policy can bring renewal to our national life and help heal and reconcile our troubled world **Summary of Peter Enns's How the Bible Actually Works** Everest Media, 2022-09-09T22:59:00Z

Entwistle, 2021-11-03 Since the first edition of Integrative Approaches to Psychology and Christianity was published in 2004 this has become the standard textbook on the topic Now in its fully revised fourth edition Dr Entwistle's book elucidates historical philosophical and practical issues in the integration of psychology and Christianity As in previous editions the current text provides an introduction to many of the worldview issues and philosophical foundations that frame the relationship of psychology and theology includes scholarly reflection on the integration literature and surveys six models of possible relationships between psychology and Christianity ranging from those that are completely opposed to either religion or psychology to intermediate models that assert that some limited interaction between them is possible to viewpoints which suggest that a Christian worldview approach can be used to provide a context for exploring areas of overlapping interest between psychology and Christianity The current edition considers recent advances in both Catholic and Protestant thinking on integration including contemporary questions about what evangelicalism is and is not that shape evangelical reactions to the integration debate New content ranges from information about the contrasting views of Tertullian and Augustine to insights from contemporary psychology about factors that adversely affect the quality and reliability of human thinking to how conflict over COVID 19 has entered contemporary religious debate The book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues Questions at the end of each chapter are included to help readers evaluate both the material and their own

Care and the Gospel Colin Roy Bell,Robert S. White,2016-01-01 How should Christians react to environmental crisis Historically evangelicals have ignored this aspect of living for Christ so this book aims to reinvigorate and empower Christians across the globe to care for creation This book collects the work of biblical scholars theologians biologists environmental researchers and community organizers who met at The Global Consultation on Creation Care and the Gospel in Jamaica in 2012 Participants from 23 countries as diverse as Argentina Bangladesh Benin and Canada gathered for five days to pray talk and reflect on the state of the planet the home in which we live and on the role and ministry of the church in caring for God s creation The book contains biblical and theological affirmations from well respected scholars and teachers reminding us that caring for creation is central to the evangelical faith It is an integral part of our mission an expression of our worship of God and a matter of great joy and hope *Countercultural* Gil Rendle,2023-05-08 After decades of anti

institutionalism here is a book that is honest about the importance of congregations and our need for them in our lives Despite our lack of trust in institutions we cannot live without them and still hope to live together in communities let alone a nation For important reasons our neighborhood institutions of religion congregations hold hope not found in other places Politics and the economy have proven themselves gridlocked and incapable of breaking the narratives of fear and scarcity that now divide us However to step up into public space in order to offer what they hold as so important to these divided times leaders of congregations need to understand why they are so countercultural and why being countercultural is an

important role to play This is not a time for congregations to try to fit into the culture and to worry about growing their membership and increasing their finances It is not a time to let organizational anxieties determine next steps What is required is courage leaders courageous enough to speak openly with confidence of what they know congregations courageous enough to seek new forms with which to offer the ancient wisdom that people still search for As much as religious institutions are now needed old forms no longer work in a fast and deeply changing culture Instead of trying to improve what is already known this book will provide a way for congregations to thrive and fulfill their purpose by being countercultural

The Gospel of the Kingdom in 21st-Century America Mark F. Williams, 2022-07-06 In His parables Jesus referred to the Gospel as seed and in so doing sought to present features of this good news and the manner in which it needed to be received The seedbed of course is the human heart People need to hear the message of the Christ and embrace it by faith and in so doing allow it to grow within their soul letting it become an informing influence in their lives Yet this seedbed already has vegetation growing within it From infancy we're taught how to get along in this world in which we live how to understand our surroundings how to avoid harm how to make our way into adulthood and benefit from our various activities Our existence is defined through our interaction with other people our families and our communities teach us how to understand the world around us We learn what is considered good and what is considered bad In complex societies basic values may be contested but even in this complexity there are certain fundamental beliefs that are embraced by most members of a particular society All these features pertaining to our surroundings are referred to as culture The culture works to define us and all who are part of our culture are defined in similar ways When the Gospel is presented within any culture it may share some common elements within that seedbed but it will also invariably conflict with that culture because at its core it is unique And its uniqueness will work to challenge the people within that culture to choose the Gospel over what they have absorbed from their surroundings The focus of this discussion is to consider how the good news the Gospel is understood and embraced in American culture today in the twenty first century and to investigate how it may be being distorted or its power diminished by some of the ideas that are prevalent in today's society
