The Everything Guide to Understanding Socialism Pamela Toler, 2011-05-18 Democracy is the road to socialism Karl Marx Socialism was one of the formative forces of the modern world and its complex history stretches back nearly three centuries But what exactly does socialism mean This informative and impartial guide takes you through socialism's origins to its contemporary interpretations covering Socialism's founders including Sir Thomas More Karl Marx and Friedrich Engels Types of socialism such as Maoism syndicalism communism and green socialism Basic constructs and beliefs and current misconceptions Socialism's impact on America including the Red Scare the Catholic Worker Movement and the Cold War Featuring an unbiased but comprehensive view of this controversial theory The Everything Guide to Understanding Socialism is the ultimate resource if you want to learn more about an age old concept turned modern day political firestorm

Social Change and Politics Morris Janowitz, 2017-07-05 This classic study deals with social control in advanced industrial society especially the United States and particularly the half century after World War I The United States is representative of Western advanced industrial nations that have been faced with marked strain in their political institutions These nation states have been experiencing a decline in popular confidence and distrust of the political process an absence of decisive legislative majorities and an increased inability to govern effectively that is to balance and to contain competing interest group demands and resolve political conflicts Janowitz uses the sociological idea of social control to explore the sources of these political dilemmas Social control does not imply coercion or the repression of the individual by societal institutions Social control is rather the face of coercive control It refers to the capacity of a social group including a whole society to regulate itself Self regulation implies a set of higher moral principles beyond those of self interest Since the end of World War II the expanded scope of empirical research has profoundly transformed the sociological discipline The repeated efforts to achieve a theoretical reformulation have left a positive residue but there have been no new conceptual breakthroughs that are compelling This book is a concerted and detailed effort to organize and to make sense out of the vastly increased body of empirical research
