SoulStirrers H. Ike Okafor-Newsum,2016-01-19 In *SoulStirrers* H Ike Okafor Newsum describes the birth and development of an artistic movement in Cincinnati Ohio identified with the Neo Ancestral impulse The Neo Ancestral impulse emerges as an extension of the Harlem Renaissance the Negritude Movement and the Black Arts Movement all of which sought to re represent the primitive and savage Black and African in new terms Central to the dominant racial framework has always been the conception that the Black subject was not only inferior but indeed incapable of producing art The Neo Ancestral impulse posed a challenge to both existing form and content Like its intellectual antecedents the movement did not separate art from life and raised a central question one that the soul stirrers of Cincinnati are engaging in their artistic productions Okafor Newsum defines collapsing of the sacred and the profane as a central tendency of African aesthetics transformed and rearticulated here in the Americas In this volume the artistic productions ask readers to consider the role of those creating and viewing this art by attempting to shift the way in which we view the ordinary The works of these artists therefore are not only about the survival of African derived cultural forms though such remains a central effect of them These extraordinary pieces installations and movements consistently refer to the cultural reality of the Americas and the need for political and intellectual transformation They constitute important intellectual interventions that serve as indispensable elements in the redefinition and reinterpretation of our society Featuring numerous color illustrations and profiles of artists this volume reveals exciting trends in African American art and in the African diaspora more broadly **War and Negative**

Revelation Michael S. Yandell,2022-03-21 From the concrete experience of war Michael S Yandell constructs a phenomenology of negative revelation in which false or distorted claims of goodness and justice disintegrate becoming meaningless Yandell argues that the disintegration of meaning in war is itself a meaningful experience revealing comes to signify the presence of goodness and justice through the profound experience of their absence The heart of this work adds a layer of complexity or depth to the term moral injury as a negative revelation Yandell emphasizes the context and logic of war itself beyond the actions of individuals paying specific attention to the U S led Global War on Terror Moral injury as a negative revelation is a disintegration of false normative claims of goodness and justice as well as a disintegration of one s sense of self oriented toward those normative claims This disintegration is prompted by the recognition of life in the midst of war s diminishment of life **American Book Publishing Record** ,2003 [Forthcoming Books](#) Rose Arny,2002-02
