Sounding Our Way Home Susan Miyo Asai, 2024-01-18 A product of twenty five years of archival and primary research *Sounding Our Way Home* Japanese American Musicking and the Politics of Identity narrates the efforts of three generations of Japanese Americans to reach home through musicking Using ethnomusicology as a lens Susan Miyo Asai examines the musical choices of a population that historically is considered outside the racial and ethnic boundaries of American citizenship Emphasizing the notion of national identity and belonging the volume provokes a discussion about the challenges of nation building in a democratic society Asai addresses the politics of music interrogating the ways musicking functions as a performance of social cultural and political identification for Japanese Americans in the United States Musicking is an inherently political act at the intersection of music identity and politics particularly if it involves expressing one's ethnicity and or race Asai further investigates how Japanese American ethnic identification and cultural practices relate to national belonging Musicking cultivates a narrative of a shared history and aesthetic between performers and listeners The discourse situates not only Japanese Americans but all Asians into the Black white binary of race relations in the United States *Sounding Our Way Home* contributes to the ongoing struggle for acceptance and equal representation for people of color in the US A history of Japanese American musicking across three generations the book unveils the social and political discrimination that nonwhite immigrants and their offspring continue to face when it comes to finding acceptance in US society and culture

Safavid Persia in the Age of Empires Charles Melville, 2021-02-25 The sixteenth and seventeenth centuries saw the establishment of the new Safavid regime in Iran Along with reuniting the Persian lands under one rule the Safavids initiated the radical transformation of the religious landscape by introducing Imami Shi'ism as the official state faith and in this as in other ways laying the foundations of Iran's modern identity In this book leading scholars of Iranian history culture and politics examine the meaning of the idea of Iran in the Safavid period by examining contemporary experiences of both insiders and outsiders asking how modern scholarship defines the distinctive features of the age While sometimes viewed as a period of decline from the high points of classical Persian literature and the visual arts of preceding centuries the chapters of this book demonstrate that the Safavid era was nevertheless a period of great literary and artistic activity in the realms of both secular and theological endeavour With the establishment of comparable polities across western southern and central Asia at broadly the same time the book explores some of the literary and political interactions with Iran's Ottoman Mughal and Uzbek neighbours As the volume and frequency of European merchants and diplomats visiting Safavid Persia increased especially in the seventeenth century and as more Iranians recorded their own travel experiences to surrounding Muslim lands the Safavid period is the first in which we can document and explore the contours of Iran's place in an expanding world and gain insights into how Iranians saw themselves and others saw them
