## **Healing Young Brains The Neurofeedback Solution:**

Healing Young Brains Robert W. Hill, Eduardo Castro, 2009-04-14 Neurofeedback is a scientifically proven form of brainwave feedback that trains the child's brain to overcome slow brainwave activity and increase and maintain its speed permanently. Neurofeedback is quick, noninvasive, and cost effective. In fact, 80 percent of the time neurofeedback is effective without any of the side effects associated with drugs commonly used to treat childhood disorders such as autism, ADHD, dyslexia, sleep disorders, and emotional problems. *Healing young Brains* examines each disorder separately and explains in lay terms the manifestation of the disorder, the diagnosis, and the rationale for treating the disorder with brainwave training. *Healing Young Brains* is parents' guide to all they need to know about treating their children with neurofeedback as an alternative to drugs.

*Neurotherapy and Neurofeedback* Theodore J. Chapin, Lori A. Russell-Chapin, 2013-12-04 The fields of neurobiology and neuropsychology are growing rapidly, and neuroscientists now understand that the human brain has the capability to adapt and develop new living neurons by engaging new tasks and challenges throughout our lives, essentially allowing the brain to rewire itself. In *Neurotherapy and Neurofeedback*, accomplished clinicians and scholars Lori Russell-Chapin and Ted Chapin illustrate the importance of these advances and introduce counselors to the growing body of research demonstrating that the brain can be taught to self-regulate and become more efficient through neurofeedback. NF, a type of biofeedback for the brain. Students and clinicians will come away from this book with a strong sense of how brain dysregulation occurs and what kinds of interventions clinicians can use when counseling and medication prove insufficient for treating behavioral and psychological symptoms.

**Children of the Fifth World** P. M. H. Atwater, 2012-10-24 Our species is evolving in preparation for the new world on the horizon. Explains how the increase in intuitive, creative, and abstract thinking abilities of children, as well as incidences of ADHD, dyslexia, and autism, signal evolutionary changes at work in humanity. The emergence of the Fifth Root Race connects the appearance of these traits with ancient myths and evolutionary calendars, as well as predictions by Teilhard de Chardin, Edgar Cayce, and other visionary seers. Reveals how these new kids act as agents for world change by reflecting back every misguided aspect of business, politics, religion, and culture. The past 30 years have seen a quantum leap in the intuitive, creative, and abstract thinking abilities of children, as well as an unprecedented rise in incidences of ADHD, dyslexia, and autism spectrum disorders. As P. M. H. Atwater explains, we are witnessing evolution at work. The changes in consciousness and brain function evident in these new kids signal the widespread emergence of the Fifth Root Race and fortuitously coincide with our transition into the Fifth World. Providing a resource for parents and new kids themselves, Atwater explains what is happening to our species and our world from neurological changes and climate upheavals to the drive to be constantly connected through screen-based technology and the unnecessary, widespread use of drug therapies. Sharing individual case histories underscoring the traits of the new child personality, she reveals how these children, born with universal consciousness encoded in their DNA, act as agents for world change by reflecting back every

misguided aspect of business politics religion entertainment technology and culture so we can't ignore what needs to be repaired Atwater shows how children labeled as autistic or otherwise damaged have enormous potential for greatness Connecting recent events and cultural shifts with creation myths evolutionary calendars and historical records from every culture as well as predictions by Teilhard de Chardin Sri Aurobindo Edgar Cayce and other visionary seers Atwater shows how the genetic shift now occurring follows the Rule of Thirds in its progression Exploring timelines for the next several hundred years she explains that the coming new world will be tailored specifically for the new kids who will lead the way in the Great Shift from old world to new

**Train Your Brain, Transform Your Life , How Neurofeedback Saved My Son from Autism** Ng Sun Luen,2017-08-21 This book is not a manual on neurofeedback Such a manual would require a thousand page text written by an expert therapist Rather it tells the story of a father's experience with neurofeedback as he witnesses this new science being applied day by day to pull his son back inch by inch from the world of autism It is the story of a father who refused to accept all those grim prognoses from pediatricians child psychologists and child psychiatrists that autism was a genetic affliction with no cure And lastly it is a book of hope for those parents who are not yet prepared to surrender their children to the scourge of autism without a fight
