Communication Skills and Challenges in Medical Practice, An Issue of Medical Clinics of North America, E-Book Heather Hofmann, 2022-06-23 In this issue of Medical Clinics of North America guest editor Dr Heather Hofmann brings her considerable expertise to the topic of Communication Skills and Challenges in Medical Practice Communication is a core part of medical practice and just as physicians increase their knowledge and hone clinical reasoning skills so too must communication skills be refined This issue provides an evidence based review of patient centered communication for the general practitioner covering key communications skills commonly used in patient encounters including challenges posed by modern medicine to effective communication Contains 15 relevant practice oriented topics including addressing the challenges of cross cultural communication gender and health communication eliciting the patient narrative motivating behavioral change breaking bad news using technology to enhance communication and more Provides in depth clinical reviews on communication skills and challenges in medical practice offering actionable insights for clinical practice Presents the latest information on this timely focused topic under the leadership of experienced editors in the field Authors synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews **Using Narrative Writing to Enhance Healing During and After Global Health Crises** Bird, Jennifer Lynne, 2021-09-24 Millions of people experience stress in their lives and this is even more prevalent in the aftermath of the COVID 19 pandemic Whether this stress stems from a job loss or a fear of sickness from working with the public stress has reigned throughout the pandemic However stress is more complicated than being simply a bad feeling Stress can impact both mental and physical wellbeing Using Narrative Writing to Enhance Healing During and After Global Health Crises is a critical reference that discusses therapeutic writing and offers it as a simple solution for those who are at the highest risk of poor health This book covers multiple writing narratives on diverse topics and how they aid with stress after the COVID 19 pandemic Including topics such as anxiety health coaching and leadership this book is essential for teachers community leadership physical and emotional therapists healthcare workers teachers faculty of both K 12 and higher education members of church communities students academicians and any researchers interested in using writing as a healing process **Men's Health Equity** Derek M.

Griffith, Marino A. Bruce, Roland J. Thorpe, Jr., 2019-04-25 Worldwide men have more opportunities privileges and power yet they also have shorter life expectancies than women Why is this Why are there stark differences in the burden of disease quality of life and length of life amongst men by race ethnicity disability status sexual orientation gender identity rurality and national context Why is this a largely unexplored area of research Men's Health Equity is the first volume to describe men's health equity as a field of study that emerged from gaps in and between research on men's health and health inequities This handbook provides a comprehensive review of foundations of the field summarizes the issues unique to different populations discusses key frameworks for studying and exploring issues that cut across populations in the United States Australia Canada the United Kingdom Central America and South America and offers strategies for improving the health of key population groups and achieving men's health equity overall This book systematically explores the underlying causes of these differences describes the specific challenges faced by particular groups of men and offers policy and programmatic strategies to improve the health and well being of men and pursue men's health equity Men's Health Equity will be the first collection to present the state of the science in this field its progress its breadth and its future This book is an invaluable resource for scholars researchers students and professionals interested in men's health equity men's health psychology of men's health gender studies public health and global health

Personalized Nutrition as Medical Therapy for High-Risk Diseases Nilanjana Maulik, 2020-04-18 Personalized nutrition involves the formulation of individualized nutritional recommendations to promote and maintain health based on an individual's genetic makeup and other unique intrinsic and extrinsic factors Implementing personalized nutrition plans for individuals with certain diseases or who are in danger of developing health conditions could help control the onset and severity of symptoms Personalized Nutrition as Medical Therapy for High Risk Diseases offers a practical guide for physicians seeking to provide tailored dietary recommendations to their patients with disease treatment modulation and prevention in mind The book focuses on the biological mechanisms of specific diseases and provides evidence for how personalized nutrition positively impacts them It explores conditions including cardiovascular diseases hypertension hypercholesterolemia diabetes obesity Crohn's disease as well as multiple pediatric renal and psychological disorders Features Includes case studies that document how people respond differently towards food depending on their genetic structure and other factors Discusses genome wide association studies GWAS to understand the interplay between genetic susceptibility and dietary interactions Provides users information to effectively implement personalized nutrition into practice Identifies possible challenges to the implementation of personalized nutritional interventions in a clinical setting This book is for medical practitioners and will also appeal to researchers and students

Person-Centred Care in Radiology Shayne Chau, Emma Hyde, Karen Knapp, Christopher Hayre, 2024-04-09 This edited book focuses on the application of patient care within the three specialisms diagnostic radiography including fluoroscopy computed tomography breast imaging ultrasound and magnetic resonance imaging

radiotherapy and oncology and nuclear medicine and molecular imaging Person Centred Care in Radiology International Perspectives on High Quality Care draws from recent publications and clinical expertise supported with this trend of technological advances and how they are supposed to enhance patient care The chapters seek to uncover the role and behavior of radiographers This will be supported with chapters on a key aspect which will impact both radiographers and patients vis vis advancing technology These chapters include topics such as artificial intelligence image acquisition coincided with topics surrounding ethics The edited volume includes contributions from the United States Canada the UK and Australasia to bring together for the first time those at the forefront of this growing field in medical imaging This book may be used to influence policymaking decisions and thus influence how healthcare delivery is offered in an ever evolving imaging environment In short this text bridges the gap between what is advocated in the literature with experience as observed in practice The targeted audience for this book is multifaceted It will primarily be a book that facilitates undergraduate radiography students worldwide It will offer a useful tool for academics delivering undergraduate pre registration radiography programs This book will act as a primer for undergraduate students but importantly signpost to other key texts within the field Further academics will find this text useful as it aims to enrich scholarly learning teaching and assessment to healthcare programs nationally and internationally

Gynecologic Health Care: With an Introduction to Prenatal and Postpartum Care Kerri Durnell Schuiling, Frances E. Likis, 2020-09-01 Awarded second place in the 2021 AJN Book of the Year Awards in the Adult Primary Care category The Gold Standard in Evidence Based Gynecologic Health Care Gynecologic Health Care With an Introduction to Prenatal and Postpartum Care continues to set the standard for evidence based gynecologic health care and well being in an extensively updated fourth edition As in prior editions the text presents gynecologic health care using a holistic and person centered approach Encompassing both health promotion and management of gynecologic conditions it provides clinicians and students with a strong foundation in gynecologic care and the knowledge necessary to apply it in clinical practice With an emphasis on the importance of respecting the normalcy of physiology it is an essential reference for all midwives nurse practitioners physician assistants and other clinicians who provide gynecologic health care Written by award winning clinicians and educators Gynecologic Health Care covers the topics clinicians and students need to know Additional chapters provide an overview of prenatal and postpartum care including anatomic and physiologic adaptations of normal pregnancy and common complications of pregnancy The Fourth Edition features three new chapters Racism and Health Disparities Male Sexual and Reproductive Health and Preconception Care All chapters have been thoroughly revised and updated to reflect current standards of care Promotes a holistic approach that considers each patient s well being within the context of their life rather than focusing only on diagnosis and treatment Expanded content supports the provision of gender inclusive health care New chapters provide a foundation to help clinicians address racism and race associated health disparities provide sexual and reproductive health care to men and

ensure a comprehensive approach to preconception health promotion Contributors and reviewers are expert clinicians educators and scientists who recognize the importance of evidence based practice Instructor resources include Powerpoint Lecture Slides and a Test Bank Reproductive and Women s Health Advanced Health Assessment of Women Primary Care Women Sexual and Reproductive Health Women s Health II Diagnosis Mgmt In Advanced Nursing Practice Family Health Nursing III Health and Illness in Women Primary Health Care II Women Health Promotion and Reproductive Health Clinical Management Theory II Seminars in Advanced Women s Health 2022 500 pages *Hip and Knee Pain Disorders* Benoy Mathew,Carol Courtney,César Fernández-de-las-Peñas,2022-06-21 Hip and Knee Pain Disorders has been written to provide a state of the art evidence informed and clinically informed overview of the examination and conservative management of hip knee pain conditions Under the current predominantly evidence based practice paradigm clinician expertise patient preference and best available research determine examination and prognostic and clinical management decisions However this paradigm has been understood by many to place greater value and emphasis on the research component thereby devaluing the other two Evidence informed practice is a term that has been suggested to honor the original intent of evidence based practice while also acknowledging the value of clinician experience and expertise In essence evidence informed practice combines clinical reasoning based on current best evidence with authority based knowledge and a pathophysiological rationale derived from extrapolation of basic science knowledge Unlike other published textbooks that overemphasize the research component in decision making this book aims to address the clinical reality of having to make decisions on the management of a patient with hip knee pain in the absence of a comprehensive scientific rationale using other sources of knowledge It offers an evidence informed textbook that values equally research evidence clinician expertise and patient preference The book is edited by three recognised world leaders in clinical research into manual therapy and chronic pain Their research activities are concentrated on the evidence based management of musculoskeletal pain conditions using conservative interventions For this book they have combined their knowledge and clinical expertise with that of 54 additional contributors all specialists in the field The contributors include a mix of clinicians and clinician researchers Hip and Knee Pain Disorders is unique in bringing together manual therapies and exercise programs in a multimodal approach to the management of these pain conditions from both a clinical but also evidence based perspective It acknowledges the expanding direct access role of the physical therapy profession The book provides an important reference source for clinicians of all professions interested in conservative management of the hip and knee regions It will also be useful as a textbook for students at both entry and post graduate level *Healthful Eating As Lifestyle (HEAL)* Shirin Anil,2016-11-30 Non communicable diseases NCDs are chronic diseases of long duration and generally slow progression including cardiovascular diseases cancers chronic respiratory diseases and diabetes Morbidity and mortality due to non communicable disease has risen tremendously over the years globally Healthful Eating As Lifestyle HEAL Integrative

Prevention for Non Communicable Diseases highlights the importance of HEAL as an intervention for the prevention and cure of NCDs as well as the prevention and treatment of its risk factors like hypertension high cholesterol obesity smoking increased alcohol intake and insufficient physical activity It provides motivational strategies for users of all ages gender and strata for healthful eating both in developed and developing countries The book is composed of evidence based information and illustrations by 32 experts including renowned researchers from academia government and non governmental organizations in the field of NCDs and nutrition from 11 countries across five continents Furthermore the book discusses the dose response relationship of healthful food with NCDs and its risk factor It also includes nutritional home remedies for prevention and control of NCDs along with safety concerns and case studies at the end of all chapters for translating theory into practice
