Rose, Barbara Cohrssen, 2011-02-14 Since the first edition in 1948 Patty's Industrial Hygiene and Toxicology has become a flagship publication for Wiley In the course of its nearly six decades in print it has evolved into a standard reference for the fields of occupational health and toxicology The volumes on Industrial Hygiene are cornerstone reference works for chemists

engineers toxicologists and occupational safety personnel Since the 5th edition was published the field of IH has changed with personnel often working for multinational firms self employed at small consulting firms Their environment has changed and expanded and thus also the types of information and resources required have changed The traditional areas of interest to occupational health and safety professionals include anticipation recognition evaluation and control of potential hazards In addition to these the 6th edition provides information and reliable resources to prepare for natural disasters exposures to biological agents and potential acts of terrorism

Contemporary Health Physics Joseph John Bevelacqua, 2009-03-09 This is the first text specifically designed to train potential health physicists to think and respond like professionals Written by a former chairman of the American Board of Health Physics Comprehensive Panel of Examiners with more than 20 years of professional and academic experience in the field it offers a balanced presentation of all the theoretical and practical issues essential for a full working knowledge of radiation exposure assessments As the only book to cover the entire radiation protection field it includes detailed coverage of the medical university reactor fuel cycle environmental and accelerator areas while exploring key topics in radiation basics external and internal dosimetry the biological effects of ionizing radiation and much more besides Backed by more than 500 worked examples developed within the context of various scenarios and spanning the full spectrum of real world challenges it quickly instills in readers the professional acumen and practical skills they need to perform accurate radiation assessments in virtually any routine or emergency situation The result is a valuable resource for upper level students and anyone preparing to take the American Board of Health Physics Comprehensive Examination as well as for professionals seeking to expand their scope and sharpen their skills

Patty's Industrial Hygiene, III: Physical Agents IV: Biohazards V: Engineering Control and Personal Protection Robert L. Harris, 2000-03-27 The standard reference in occupational health and safety for over 50 years the new Patty's presents for the first time a separation of industrial hygiene and toxicology topics offering complete reorganization of the material into four volumes of clearly defined topic areas
