Arizaga,2022-08-22 This book provides an in depth examination of the Yungdrung Bon religion in light of globalization In its global dimension Bon has been attracting a growing number of Westerners particularly to its Dzogchen teachings and meditation practices In this expansion Bon operates in a dynamic context where forces that create changes in the tradition coexist sometimes in tension and sometimes in tandem with other forces that aim to preserve it In tracing the process through which Bon has become a global religion this monograph narrates the story of the principal figures who initially facilitated this transmission following their journey from Tibet to India and Nepal The narrative then moves to explore the dynamics taking place in the transmission and reception of Yungdrung Bon in Western countries opening up a new viewpoint on the expansion of Tibetan religious traditions into the West and painting a comprehensive picture of the modern history of the Yungdrung Bon religion as narrated by its participants In so doing it makes an invaluable contribution to the study of Tibetan traditions in the West as well as to the wider history of religions social anthropology psychology and conversion studies **The Tibet Journal (Vol. XLVIII, No. 1, Spring/Summer 2023)** ,2023-01-01 *The Oral Tradition from*

Watson, 2023-09-05 The time has come for nondualism As a fundamentally unifying concept nondualism may seem out of place in an age of rising nationalism and bitter deglobalization but our current debates over tribalism and universalism all grant nondualism an informative relevance Nondualism rejects both separation and identity thereby encouraging unity in difference Yet nondualism as a word occupies a large semantic field Nondual theists advocate the unity of humankind and God while nondual atheists advocate the inseparability of all persons without reference to a divinity Ecological nondualism asserts that we are in nature and nature is in us while monistic nondualists assert that only God exists and all difference is illusion Edited by Jon Paul Sydnor and Anthony Watson and guided by scholars from different religions and specializations Nondualism An Interreligious Exploration explores the semantic field that nondualism occupies The collection elicits the expansive potential of the concept clarifies agreement and disagreement and considers current applications In every case nondualism is universal in its relevance yet always distinctive in its contribution *Rainbow Body and Resurrection* Francis V.
