Hearts Refilled T R Charles:

Hearts Refilled T. R. Charles, 2015-11-25 Jake Jacobson is a fiftysomething widower who has spent the last year trying to get over his wife's death. He turns to his work in the construction industry and to his newly adopted dog Butch to distract him from his grief and from the nagging sense that there had been a void even before his wife had died. At the tail end of a fishing trip Jake and Butch are near a beach when they see a woman being chased through a parking lot by two young men, one of whom is carrying a gun. Jake comes to her rescue and that's how he meets Beth Goodwyne. Beth is also a widow and it seems the men chasing her were her stepsons. As Jake and Beth get to know each other they find themselves quickly falling in love together, finding affection and caring that their earlier relationships lacked. But Beth's stepsons still pose a threat. Will Jake be able to keep her safe? In this romance novel a widower and a widow meet by chance and find true love together for the first time. The marquis of Valrose, tr. by Alys Hallard Charles Foley, 1898 An ecclesiastical history, ancient and modern, tr. by A. Maclaine Johann Lorenz von Mosheim, 1826 Memoirs, tr. [by C. Lennox] from the Fr. [in the adaptation of P.M. de l'Écluse de Loges]. To which is added, The trial of Ravillac for the murder of Henry the great Maximilien de Béthune (duc de Sully.), 1756 The Heart of Leonardo Francis Wells, 2014-07-08 This book contains all of Leonardo Da Vinci's drawings on the heart and its physiology accompanied by re-translations of all of the associated notes. All Leonardo's drawings have been interpreted in the light of modern knowledge by a practicing cardiac clinician and anatomist. The veracity of his work is proven against contemporary dissections of cardiac structure and comparison of his illustrations with contemporary images generated by Magnetic Resonance scanners and high definition ultrasound will astound the reader. Perhaps the most interesting element is the re-dissection of the Ox heart set against Leonardo's own drawings. His place in the greater scheme of anatomical development will be put into context with his ideas of man's place in the microcosm-macrocosm continuum. **Vietnam and America** Marvin E. Gettleman, 1995 No single event since World War II has marked this country's foreign policy and national image as deeply as did the war in Vietnam. Vietnam and America is a complete history of the war as documented in essays by leading experts and in original source material. With generous selections from the documentary records the book dispels distortions and illuminates in depth the many facets of the war from Vietnam's history before the war to Washington's insider policy making to troop perspectives to the impact back on the home front. In essays introducing each major stage of the war the editors elucidate the issues, foreign policy choices and consequences of U.S. involvement. Substantial headnotes put each document in historical perspective. This comprehensive anthology is an invaluable reference for anyone who wants to understand the Vietnam War.
