*Ingenious* Jason Fagone,2013-11-05 An epic tale of invention in

which ordinary people's lives are changed forever by their quest to engineer a radically new kind of car. In 2007 the X Prize Foundation announced that it would give 10 million to anyone who could build a safe mass producible car that could travel 100 miles on the energy equivalent of a gallon of gas. The challenge attracted more than one hundred teams from all over the world including dozens of amateurs. Many designed their cars entirely from scratch rejecting decades of thinking about what a car should look like. Jason Fagone follows four of those teams from the build stage to the final race and beyond into a world in which destiny hangs on a low drag coefficient and a lug nut can be a beautiful talisman. The result is a gripping story of crazy collaboration, absurd risks, colossal hopes and poignant losses. In an old pole barn in central Illinois, childhood sweethearts hack together an electric powered dreamboat using scavenged parts, forging their own steel and burning through their life savings. In Virginia, an impassioned entrepreneur and his hand-picked squad of speed freaks pool their imaginations and build a car so light that you can push it across the floor with your thumb. In West Philly, a group of disaffected high school students come into their own as they create a hybrid car with the engine of a Harley motorcycle. And in Southern California, the early favorite, a start-up backed by millions in venture capital, designs a car that looks like an alien egg. Ingenious is a joyride. Fagone takes us into the garages and the minds of the inventors, capturing the fractious yet beautiful process of engineering a bespoke machine. Suspenseful and bighearted, this is the story of ordinary people risking failure, economic ruin and ridicule to create something vital that Detroit had never pulled off. As the Illinois team wrote in chalk on the wall of their barn: **SOMEBODY HAS TO DO SOMETHING THAT SOMEBODY IS US**. *Lotus Esprit* Jeremy Walton, 2006-04-01. *Lotus Esprit: The Official Story* is the inside story of Britain's best-loved supercar from its development in the early 1970s right through to the 21st century. That the Esprit ever appeared in the showroom never mind set a record for British sportscar continuous production from 1976-2004 is a story straight from the Lotus era. How Colin Chapman labored alongside Italian designer and fellow genius Giorgetto Giugiaro to bring the first show Esprits to life is just one of the stories unveiled by Jeremy Walton's research. The Esprit in all its Lotus Type numbers and derivatives from the very first Type 79 onwards is revealed in this seriously comprehensive book. A total of under 11,000 Esprits were made in its 28 year production span which means that some models had production numbers of less than 100 and have therefore become extremely collectable. Supremely agile and rapid Esprits such as the Sport 300 and V8 350 are examined in all their 160 to 175 mph glories along with the race track inspired Esprit Turbo, SCCA X180R and Type 114 Esprit GT1. As with Walton's acclaimed *Lotus Elise* title for Coterie, this conscientious Esprit production was enabled only by the full co-operation of Lotus Cars. Once again they gave frank access to their archives as well as their employees. *Lotus Esprit: The Official Story* contains the reminiscences of the loyalists and the youngsters who added to their growing reputations when involved in the concept and design of the Esprit, many who are now famous industry figures following a Lotus apprenticeship. The author's trusted participation at every stage in the Esprit's long life is reflected by the openness of all involved. They tell us the real stories.
