Louis XIV's Architect Richard Ballard, 2023-12-30 A must read for those seeking to understand the intersection of politics and art in a pivotal moment of European history. This is a study of royal absolutism in a most extreme form in modern European history and of the nature of Louis XIV's concept of personal glory and of the embodiment of France as a new superpower. It is a study of political ideas expressed in architecture to establish Versailles as the centre of French world power and royal prestige. It is also a personal story full of social, cultural and economic history of the period as seen in the life and work of Louis Le Vau from a humble family of craftsmen who was a self-taught architect in the early history of the profession, skilled in technical craft skills and even grand design. He was a major contributor to the architectural glories of Paris including the Louvre, Vincennes, Versailles and the College of the Four Nations. And all achieved despite interference from the great magnates of the age like Mazarin and Colbert and constant mind-changing by the King who wanted every feature in the buildings to reflect his concept of personal royal prestige. Le Vau was Louis XIV's First Architect from 1654 until his death and disgrace in 1670. The social, cultural, economic and political backdrop is striking with court intrigue, scandal, corruption, luxury, indulgence and the rise of a rich bourgeoisie, but the main thrust of the story concerns Louis XIV and the royal personal ambition and the work of a stone-cutter's son who became the Sun King's instrument. The study is good on the more technical features of architectural history reminiscent of Pevsner's marvellous Buildings of England series.

Le Louvre et les Tuileries Alexandre Gady, 2014 Le Louvre est un musée la cause est entendue. Le plus grand du monde. Mais il est d'abord et fondamentalement un palais où le pouvoir s'est donné voir depuis plus de huit siècles. Un palais intimement lié à l'histoire de la monarchie capétienne qui a fait la France avec Philippe Auguste son fondateur en 1190. Un palais consubstantiellement lié à l'histoire de Paris capitale de cette France dont il a favorisé tout le développement vers l'ouest avec son double disparu le château des Tuileries. Ainsi le domaine royal du Louvre dont Henri IV a voulu l'immensité au XVII^e siècle incarne-t-il dans la pierre l'image du pouvoir qui de militaire et royal est devenu ce soft power qui participe toujours de la politique. Le Louvre est également un musée dans un palais cet étonnant défi lancé par Louis XVI au début de son règne n'a cessé de façonner le Louvre pour l'adapter son nouveau rôle.
