The Greying of India Rajagopal D Chakraborti, 2004-06-30 This book argues cogently that India's policymakers need to urgently take up the cause of the elderly in order to create an environment that insures them against various risks and allows them to maintain as much economic independence and self sufficiency as possible without disturbing the intergenerational balance The first of its kind to be based on data from the National Sample Survey Organisation and providing a global perspective this book constitutes the most comprehensive analysis of the causes and consequences of ageing in India The major objectives of the book are to Document the rapid growth of older populations in India Address the key issues and topics related to ageing Assess the implications of demographic changes for programmes and policies for the aged Present an Elderly Status Index based on available data Timely stimulating and challenging this book is packed with relevant and hitherto unanalysed data on ageing in India In particular it provides an exhaustive discussion on various conceptual and measurement issues relating to population ageing

Gender Trends in Southeast Asia Theresa W. Devasahayam, 2009 As a region Southeast Asia has undergone enormous economic and social changes in the last few decades Women as a collective have seen their lives transformed as a result of rapid development and economic growth In exploring the progress made by Southeast Asian men

and women this book seeks to answer the following questions a In what areas have women been able to achieve parity with men b In what areas do women encounter specific disadvantages based on their gender as compared with men and c How have womens concerns and problems been addressed by the governments in this region with the aim of encouraging gender equality As the title of this book suggests the chapters provide an analysis of the broad trends including changes and continuities in the experiences interests and concerns of Southeast Asian women The chapters examine the trends related to women in the following arenas the family economic participation politics health and religion In some arenas the trends reflect the disadvantages women face which in turn have led to gender gaps in other areas women s progress has been found to eclipse that of the men although this tends to be the exception

Biodemography of Fertility in Japan Shoko Konishi,Emi Tamaki,Jun Yoshinaga,2017-12-30 This book presents original data on the proximate determinants of fertility in Japan Its goal is to disaggregate low fertility levels in Japan into physiological behavioral and social components Further the book reviews previous studies on the proximate determinants of fertility in Japan and compares the data to that on other countries This book is the first to summarize previous research projects conducted in Japan on this topic and proposes future research directions to fill the remaining research gaps Further it sheds new light on the similarities and differences between the fertility level in Japan and in other countries in terms of biodemographical components helping readers understand the mechanisms of fertility change in Japan

The New Reproductive Order Sarah Franklin,Marcia C. Inhorn,2025-04-22 The transformative impact of new reproductive technologies over the past half century Both fertility and infertility are commonly depicted as individual biological and choice dependent conditions that can be mediated by technology In contrast The New Reproductive Order documents the complex material historical and political forces that both enable and limit human reproductivity while also arguing that both fertility and infertility have become condensed symbols of wider changes to family forms national political agendas global economies and local environments Combining anthropological sociological and intersectional feminist research from across the globe this landmark volume reveals how changing perceptions of fertility and infertility are altering how people imagine pursue and experience reproductivity both individually and collectively Using a comparative global methodology based on detailed case studies The New Reproductive Order persuasively argues that changing perceptions of fertility and infertility are giving rise to a distinctive reproductive politics based on new models of reproductive cause and effect This groundbreaking and sophisticated volume opens new horizons of scholarship on the relationship between fertility infertility reproductive technologies and social change as well as new thinking on policy practice and activism in the twenty first century s new reproductive order

The Fertility Transition in Iran Mohammad Jalal Abbasi-Shavazi,Peter McDonald,Meimanat Hosseini-Chavoshi,2009-09-30 Confounding all conventional wisdom the fertility rate in the Islamic Republic of Iran fell from around 7 0 births per woman in the early 1980s to 1 9 births per woman in 2006 That this the largest and fastest fall in fertility ever recorded should have occurred in one of the world s few Islamic

Republics demands explanation This book based upon a decade of research is the first to attempt such an explanation The book documents the progress of the fertility decline and displays its association with social and economic characteristics It addresses an explanation of the phenomenal fall of fertility in this Islamic context by considering the relevance of standard theories of fertility transition The book is rich in data as well as the application of different demographic methods to interpret the data All the available national demographic data are used in addition to two major surveys conducted by the authors Demographic description is preceded by a socio political history of Iran in recent decades providing a context for the demographic changes The authors conclude with their views on the importance of specific socio economic and political changes to the demographic transition Their concluding arguments suggest continued low fertility in Iran The book is recommended to not only demographers social scientists and gender specialists but also to policy makers and those who are interested in social and demographic changes in Iran and other Islamic countries in the Middle East It is also a useful reference for demography students and researchers who are interested in applying fertility theories in designing surveys and analysing data
